THE CASUALTIES AMONG OUR FORCES.

PHILADELPHIA, Friday, May 1.

The *Evening Bulletin* publishes an extra with the following:

We have no dispatches relating to the movements of our army beyond the Rappahannock, but are able to assure our readers that everything is going on favorable in Gen. HOOKER's army.

LATER—A VICTORY.

We learn, though not from an official source, that Gen. HOOKER, with 60,000 men, has had a battle with the rebels beyond the Rappahannock. We have no particulars; but the Union troops are victorious.

FROM WASHINGTON BY MAIL.

WASHINGTON, Thursday, April 30.

From the best attainable information from persons arriving from the Rappahannock, it appears that some important movements took place yesterday.

There was no fighting of any importance. The force crossed at Kelly's Ford. Pontoon bridges were laid two and three miles below Fredericksburgh, and we held possession of those points last night.

The enemy formed lines of battle and planted batteries on the heights in their rear, and also fired a few shots to get the range.

In crossing, we lost one or two officers killed, and from 30 to 40 men wounded. Our men crossed first in boats, and drove the enemy out of their rifle pits, killed and wounded many, and took 106 prisoners, including several officers, one of whom was Lieut.-Col. HAMMOND, of the Sixth Louisiana. These prisoners arrived here yesterday, and were sent to the Old Capitol Prison.

Another informant says the left wing, 35,000 strong, crossed four miles below Fredericksburgh, a little below where FRANKLIN crossed previous to the first battle of Fredericksburgh. They fought twelve hours, drove the enemy eight miles out of their rifle-pits and behind their intrenchments. [Our correspondent's letter rectifies this latter statement.—ED. TIMES.]

The Third brigade of the First Division of the First Corps has suffered more than any other in the fight.

Our forces have captured between five and six hundred prisoners, who will soon be brought to this city.

Many of these prisoners have voluntarily come over to us, having thrown away their arms, in small squads, and beg for food. They pick up what the soldiers have thrown away on the march. Other rebels, however, say they have plenty to eat.

The right wing crossed at Kelly's Ford, and Gen. STONEMAN's cavalry is reported to be somewhere in the rear of Fredericksburgh.

One corps remains at Falmouth as a reserve.

OUR SPECIAL ARMY CORRESPONDENCE.

Details of the Crossing Below Fredericksburgh.

BELOW FREDERICKSBURGH, Thursday Morning, April 30, 1863.

Tuesday afternoon the forward movement commenced, the position of the army designed for this point encamping in the woods above the river, without fires and with as little noise as possible. Gen. PRATT, with his "flying division," together with Col. SHALER's brigade of Gen. HOWE's division, reported to Gen. BENHAM, and were assigned the duty of carrying the pontoons down to the river for the first three bridges below the city, getting them down to the bank between 3 and 4 o'clock Wednesday morning. The bridges weighed over two thousand pounds each, and the men tugged away lustily, getting the pontoons to the river without the enemy becoming aware of their presence, until the boats were launched. Two companies of the Regular engineers and Companies I, B, E and A, of the Fifteenth New-York engineers, under command of Maj. CASSON, were assigned to the duty of laying those three bridges. They first moved over Gen. RUSSELL's brigade of HOWE's division, who came upon the rebel pickets lying behind their earthworks so suddenly that they had time to deliver but one volley. They immediately skedaddled over the fields and into some neighboring houses, where the officer of the picket—a Major—was found in bed asleep. Some half dozen prisoners were taken.

Col. IRWIN, of the Forty-ninth Pennsylvania, who served with Gen. HOOKER in Mexico, was wounded in the foot, and conveyed to Potomac Creek bridge. There were also wounded:

Capt. W. B. Freeborn, Co. B, 49th Pennsylvania—fractured thigh.
Corp. Moses Creswell, Co. B, 49th Penn.—thigh.
James Culp, Co. E, 95th Penn.—fractured arm.
Moses McCluskey, Co. F, 95th Pennsylvania—thigh, flesh wound.
John Gorman, 49th Pennsylvania—dead.
Cornelius Hugbaum, Co. I, 16th New-York—arm.
David Vail, 5th Maine—hand.

They were all taken to the Pollock House, where Dr. E. F. TAYLOR, Medical Director of BROOKS' division, has established his hospital.

There bridges were lain exactly at the point where they were thrown last year for the left wing to cross. About a mile and a half below two other bridges were thrown by Companies B, C, D, H and K, of the Fiftieth engineers. They begun the labor of laying them about five o'clock in the morning, but had hardly reached the river before the enemy opened a furious volley upon them. Portions of WADSWORTH's division, First Corps, opened a return fire upon them, which was kept up for some time, until several boats were finally launched and a large body were rowed over. The Twenty-fourth Michigan, Col. MORROW, and Sixth Wisconsin, Col. BRAGG, of MEREDITH's brigade, were the first to reach the opposite bank. Gallantly the whole force charged up the steep bank, capturing one Lieutenant-Colonel, 2 Lieutenants, and 84 privates, belonging to the 6th Louisiana and 14th Georgia.

Our artillery which had assisted materially in driving the rebels out of their rifle pits, threw several shells into the houses to which several of them had fled. The following casualties occurred.

Capt. Gordon, Co. K, 7th Wisconsin—dead.
Lieut. Ryan, Co. A, 7th Wis—seriously wounded.
P. J. Shields, Co. D, 6th Wis—seriously wounded.
Corp. Plummer, Co. C, 6th Wis—hand and leg.

Harvey Robins, Co. F, 22d N. Y. V.—left thigh.
Truman Hall, Co. F, 22d New-York Vols.—side.
Patrick Flagerty, Co. K, 14th N. Y. S. M.
B. L. Sistz, Co. H—left arm.
Joseph McKee, Co. C, 24th Michigan—fore-arm.

Eighty-four prisoners were taken, including two Officers. The eighty-four prisoners belong to the Sixth Lousiana and Fourteenth Georgia; and also, two Lieutenants, Fourteenth, and Lieutenant Colonel, Sixth Louisiana.

Four divisions have crossed the river; the remainder of the forces are still on this side.

Details of the Crossing Above Fredericksburgh.

IN BIVOUAC AT KELLY'S FORD, ON THE RAPPAHANNOCK, TUESDAY—10 P. M.

The Rappahannock is again crossed by the Army of the Potomac, and this time without the shedding of a drop of blood, or the firing of a single gun.

The great movement which we have been so long anticipating began in earnest at daylight on Monday morning, by the movement of a very heavy force up the Rappahannock. The Eleventh Army Corps, Gen. HOWARD, had the advance on the march, and still has it. At this hour it is hardly prudent to enter into the minute details of the force and the march, as they have undoubtedly a great deal of work yet before them.

The weather on Monday was remarkably fine—even sultry, and the men found marching in overcoats too fatiguing. They threw them away in large numbers, and the track of the column can be traced by the abandoned clothing.

Tuesday morning we had a cloudy sky, and before 9 o'clock a drizzling rain began falling. But our column kept steadily moving, and by 1 o'clock Gen. HOWARD's advance arrived at Mount Holly Church, one mile from Kelly's Ford, having marched sixteen miles since daylight. The rain continued until the middle of the afternoon, when it ceased, it having at no time been very severe, but just enough to make marching heavy, and to stall one or two of our very small number of wagons in some of the chronic mud-holes. Otherwise, the move prospered. The arrival of the troops in the vicinity of the Ford was well masked by Col. BUSHBECK's brigade, of the Eleventh Corps, who had been guarding the post for two weeks.

The troops marched rapidly and in fine spirits. SLOCUM camped last night near Hartwood Church, and MEADE just east of it—all were well up by 4 P. M. to-day.

At 8 this morning Gen. HOOKER left his headquarters, and accompanied by his personal Staff, rode straight to Morrisville, 20 miles distance, and but six miles to the Ford. His passage through various columns of troops was marked for miles by a tumultuous cheer, enthusiastically genuine.

At Morrisville he makes his headquarters for the day and night. A consultation of corps commanders, including Gen. STONEMAN, who had come from Warrenton Junction, was at once held, and then and there Gen. HOOKER first revealed to these, his principal subordinates, a portion of the plan and nature of the present movement. Beyond what has been already developed, none but these officers know anything. Yet there is reason to believe that it is startling in the magnitude of what it contemplates, and general officers remarked this afternoon that if officers and men did one-half their duty, it could not fail of success.

HOWARD rested his men four hours, and they were then got under arms ready to support the operations at the ford. The pontoon train for the bridges arrived with great promptness, having come from Bealeton Station, being transported thither by a railroad from Alexandria. They are the usual wooden boat, save being smaller in size than those formerly used. The pontoons and timber were all unloaded on the bank of Marsh Creek, near its mouth, and the boats launched before dark.

These operations, be it known, were conducted in plain sight of the enemy, who appeared only in small force—a few straggling pickets, who seemed to be there as lookouts only. They kept a sharp watch, but not a shot was fired. The work went rapidly on. The pontoons were at once shoved from the mouth of Marsh Creek into the Rappahannock. Seventeen boatloads of men from Col. BUSHBECK's brigade were thrown over at once, followed by a reinforcement of as many more.

The bridge-laying began at 8 o'clock, and proceeded vigorously, under the direction of Capt. COMSTOCK, Engineer Officer on Gen. HOOKER's Staff. By 9½ P. M., one bridge was completed, and another under way. HOWARD's corps was put under motion for crossing. BUSHBECK's brigade leading, followed by SCHURZ's division, then by DIVEN's, the balance of VON STEINWEHR bringing up the rear. This force was disposed on the south bank, for the night, doing picket duty on the different roads. Just before our forces landed a small body of cavalry, numbering twenty, perhaps, dashed down nearly to the river, and halting for a short time, leisurely surveyed our operations and then retired.

That there was no resistance at the Ford caused much surprise. Not a single shot was fired. The enemy had rifle pits, but did not use them. We took no prisoners.

There is the best reason for believing that up to noon to-day the enemy had not discovered this movement. Every citizen on the line of march was put and will be kept under close guard until they can do no damage. We speculate freely on the events of the morrow ere we reach our destination, which is Culpepper on the one hand, and Ely's Ford, on the Rapidan, on the other. We shall undoubtedly meet the enemy before we reach either place, though each are less than a day's march distant. STUART's cavalry have not shown themselves to any extent, and FITZ-HUGH LEE is reported absent, sick.

We are certain of one or more things. There are no heavy fortifications in front of us, there are no very strong positions which can be defended. The enemy must have as great a force as ours to beat us back.

Bridges will undoubtedly be laid at other fords, further down the river, for the benefit of our transportation, which is in a safe place. Once well across here, we can protect the laying of bridges at any of the fords below.

The sun set clear and red to-night, and gave promise of a fair day to-morrow. But the night is thick with mist, and the moon is "eating fog," which sailors say is a sure sign of a coming storm.

Before to-morrow night there will undoubtedly be some blood-letting. Our commander looks and feels as though he was in his element.

There are other important movements on foot by other portions of the army.

A correspondent of the *Herald*, named VOSBURG, was captured yesterday, by three dismounted rebels, who crossed the river below Ellis' Ford, and stole him away, horse and all, while he was enjoying a secesh breakfast. He had foolishly gone outside the lines to get greater comforts than the camps afford—hence his grief. His host, who is a rebel parson, named MCMURRAY, betrayed him. This parson lives on property owned by P. W. ENGS, of New-York. His reverence was gobbled in return, and from a host will become a hostage.

I am in bivouac to-night with Lieut.-Col. MCVICAR, Sixth New-York cavalry, an intrepid officer, who pickets the line in the immediate front of our operations.

Gen. PLEASANTON's cavalry division will take the advance in the morning. L. L. C.

The Mutinous First New-York Regiment—Cause of the Disaffection—Important Arrests—The Army Paid.

HEADQUARTERS, ARMY OF THE POTOMAC, Sunday, April 26.

A company in the First New-York Volunteers, one of the two years' regiments, attached to Col. HEYMAN's brigade, refused to do duty a few days ago, on the ground that their term of service had expired. It appears that this company had been mustered in some two weeks prior to the regimental muster, and the men requested to be discharged, as they claimed to have served two years from the date of company muster. The term of the regiment expires on the 7th of May. The matter was referred to the War Department for a decision, and in answer, the following telegram was received from headquarters, Army of the Potomac:

To Brig.-Gen. Williams:

The term of service of the First New-York Volunteers expires May 7, 1863. The term of service of the regiments is reckoned from their completion as regiments, that is, the date of muster in of the last company of each.

(Signed,) SAMUEL BRECK, A. A. G.

This decision seemed by no means to satisfy the mutineers, and the disaffection increased even to those whose term did not expire until the 7th of May, and who, by far, proved the most unruly. Gen. BIRNEY ordered the Fortieth New-York Volunteers under arms and arrested the ringleaders, stripped the men of their arms and regimental colors, and confined them to their quarters. There was no violence used. They disarmed quietly. The corps commander, Gen. SICKLES, issued the following order, which was read to the regiment:

HEADQUARTERS THIRD ARMY CORPS, April 23, 1863.

SPECIAL ORDERS No. 62.—III. It is reported to the Major-General Commanding that the First Regiment New-York Volunteers, excepting the commissioned and a few non-commissioned officers, have lain down their arms and refuse to do duty.

That a regiment which has earned an honorable name in this Army Corps for gallantry and fidelity, should cover itself with shame during the last few days of its term of service, and by the gravest of military crimes forfeit all claims to future recognition among their comrades in the Army of the Potomac, is a most painful and humiliating announcement.

There is reason to believe that this extraordinary conduct is attributable to the bad counsels and misrepresentations of a very few bad men in the camp; and that a brief interval for reflection may suffice for the true soldiers of the First New York Volunteers to resume their duties and hasten to efface all recollection of their turpitude, by the prompt and zealous obedience which they will yield to orders.

Whenever the men shall have returned to duty, the Major-General commanding will carefully consider all matters of complaint which they may desire to present; if their complaints have any reasonable foundation, prompt redress will be afforded by himself, if, in his power, or by higher authority, should their grievances, if any exist, involve the exercise of authority which the General commanding does not possess.

To the end that no means may be left untried to avert the consequences which will surely follow the refusal to obey, the next order to this regiment, the Major-General Commanding directs that the regiment be stripped of its arms, accoutrements and colors to-day; that for twenty-four hours the regiment be allowed only bread and water; that a strong guard be placed on the camp, preventing any one from entering or leaving the camp unless with a pass from the Division Commander; that to-morrow, at noon, the regiment in two reliefs be ordered on fatigue duty, on the Corduroy road, through this camp; and if that order and all subsequent orders shall be obeyed no further punishment will be inflicted, except upon ringleaders, all of whom will be brought before a General Court martial and disposed of summarily.

If on to-morrow, at noon, the men of this regiment shall be found yet mutinous, then, beside the loss of all pay now due and to become due, and the bounty of $100 to which each man would otherwise have been entitled, with an honorable discharge, three men from each company will be selected for trial before a Drum-head Court and turned over to the Provost-Marshal for the immediate execution of the sentence imposed; all the other mutineers will be numbered and drafted into other regiments of this corps, and required to serve out the full period of their enlistments; the officers will be mustered out or dismissed, or reduced to the ranks, according to circumstances. And the First Regiment New-York Volunteers, thus disbanded in disgrace, will cease to exist as a military organization in the service of the United States.

By command of Maj.-Gen. SICKLES.
O. H. HART, Assistant Adjutant-General.

The bread-water sentence was carried out, but the working on the corduroy roads was commuted. The men evincing their desire to return to duty and expressing regret for what they had done, their arms, &c., were accordingly returned, and order again reigns in the First New-York Volunteers.

The Provost Marshal Third Army Corps made several important arrests last night, in a farm-house not far from headquarters, a lot of arms, ammunition and a large quantity of soldiers' clothing. The occupants, father and son, (Virginians,) were arrested and brought to headquarters. Their explanation of how the articles came in their possession being deemed unsatisfactory by the Provost Marshal, they were sent to the guard-house. The man says he is forty-one, and the son seventeen years old. They have never taken the oath of allegiance, but have even had a safeguard from us to protect their property. Who is responsible for permitting these traitors to reside in our midst, giving information to the enemy of every movement that takes place, I am unable to say, but that the enemy are cognizant of what transpires in our army daily, there is no room for doubt. The rebel telegraph, so lately in working order between Falmouth and Fredericksburgh, established this fact beyond all question.

Three or four other parties were arrested for having in their possession goods belonging to the army. It is time the system of protecting these traitors should be broken up.

The army is nearly all paid. It is altogether likely the Paymasters will close their business to-day. Large sums are being sent home, and the subscriptions for the Irish Relief Fund are quite large. The army is in excellent order, with the fullest confidence in Gen. HOOKER.

A magnificent review took place yesterday of the Third Corps. Secretary SEWARD, with his family, accompanied by some foreign Ministers, were the reviewing personages. The party came down on Sunday and remained until Monday afternoon, when they returned to Washington. A salute of fifteen guns was fired by SEELY's battery as the distinguished party came on the ground. Gen. HOOKER, Secretary SEWARD and the Baron GRABOW rode in advance. On arriving at the spot assigned for the troops to pass in review, the party were cordially met by Maj.-Gen. SICKLES, who, with his Staff, accompanied the party through the line of his troops, after which they passed in review. The day was splendid, and the review one of the most brilliant ever witnessed. The foreign Ministers present on the occasion expressed their admiration of the neat appearance and marching qualities of this veteran corps. They freely admitted they eclipsed any body of soldiers they had seen in Europe in point of drill. The batteries passed also in review. SEELY's battery was much admired.

Another rain-storm has set in, with a prospect of lasting three days, as usual. One day of sunshine and three days of rain appears to be the clerk of the weather's programme for the month of April in Virginia. M.

A Fire Among the Camps—A Review—A Birth, &c.

LEFT WING, Tuesday, April 27, 1863.

The air was filled with dense clouds of smoke, yesterday, occasioned by the burning of large quantities of brush and "slashing" in the vicinity of the various encampments. So rapidly did the fires spread in several cases, as to seriously endanger the soldiers quarters. The flames nearly surrounded the camp of one New-York regiment on picket, and were only subdued by the most herculean exertions.

The review of Gen. SICKELS' corps, yesterday, by Secretaries SEWARD and BLAIR and Gen. HOOKER, passed off very finely.

Gov. PARKER, of New-Jersey, is visiting the various regiments of his State, and reviewed Gen. MILLS' brigade Saturday evening.

A Corporal in a New-York City regiment gave birth to a fine boy a few days since. For two years this female soldier has served in the ranks without any suspicion of her sex, even by her messmates. The mother and child are now in the hospital doing well.

Three more two-years' New-York regiments have been ordered home, to leave on the 10th of May—the Twenty-first, Twenty-third and Twenty-fourth.

FROM THE SOUTH.

Late Southern papers have the following telegrams:

PASSAGE OF THE BATTERIES AT VICKSBURGH.

VICKSBURGH, April 21, 1863.

All quiet here. The battery on the Peninsula, opposite, has been silent all day; the enemy appears to be at work there. A party of our men surprised some of the Yankees across the river last night, killing one of them. Firing was heard to-day in the direction of New-Carthage. The river is falling rapidly.

JACKSON, April 23.

The enemy passed Vicksburgh at 1 o'clock this morning. Gen. STEVENSON says that one was a gunboat and five transports, sunk to the guards, and so arranged as to resemble gunboats. Two were disabled and one sunk. The wreck of one boat is in sight at BROWN & JOHNSTON's wharf. The smokestacks and one wheelhouse are out of the water. No other boats are visible. The fleet was at Grand Gulf yesterday. Gen. TAYLOR is retreating back of the town of Opelousas, towards Alexandria.

VICKSBURGH, Thursday, April 23.

One Yankee transport lies sunk to her hurricane roof, at BROWN & JOHNSTON's five miles below the city. Two Yankee prisoners, who escaped from the sinking transport, were brought over the river this morning. They report that the boilers of the transports were burst by our batteries, and that two of their pilots were killed by our musketry.

THE CROPS.

From the Charleston Mercury, April 25.

The information we have through letters and persons of observation, from Abbeville, Edgefield and Barnwell Districts, give very encouraging prospects for the growing wheat, and the stand of much corn is good for the season. A letter from Abbeville District, dated the 21st inst., says: "I trust there will be 75,000 to 100,000 bushels wheat for sale from this District. In Edgefield it is equally promising." We hope the holders of corn and flour in the country will not allow *the weevil to feast*, when our soldiers and their families are needing the staff of life. So far as the *extortioners and speculators may be hurt* by the abundant prospect of the grain, ere long to ripen, they may have sour and bitter bread for their daily rations.

NEWS FROM WASHINGTON.

Immense Sales of Government Five-Twenties.

OVER FORTY-FIVE MILLIONS DISPOSED OF.

The Mustering Out of Two-Year Troops.

OUR SPECIAL WASHINGTON DISPATCHES.

WASHINGTON, Friday, May 1.

THE GOVERNMENT FINANCES.

The sales of five-twenty Bonds by JAY COOKE & Co.—a measure of the increasing confidence in the Administration and the stability of the Government—for the last four days of April, were as follows:

April 27	$2,205,720	April 29	$1,073,700
April 28	4,262,950	April 30	1,218,350

Since the adjournment of Congress, a period of only eight weeks, the amount of money lent by the people to the Government, through these five-twenties, has been *over forty-five millions of dollars*. Assistant Secretary HARRINGTON, with a brief application of his energy to the evil of the inequality of the supply of the bonds to the subscription for them, has arranged for such an increase of the force of engravers and printers, that after next week, as fast as the people shall send in their money the Government will hand out the bonds.

NEW ORDER RELATING TO MUSTERING OUT.

A new order, No. 108, requires that whenever volunteer troops are mustered out of the service, the entire regiment, or other organization, will be considered as mustered out at one time and place, except prisoners of war, who will be considered as in the service until their arrival in a loyal State, with an allowance of time necessary for them to return to their respective places of enrollment. Officers and men absent from their commands on detached service, sick in hospital, or paroled, will be furnished with transportation by the Quartermaster's Department to the place where the regiment is to be mustered out, in time to be present at the muster. If from sickness, or other proper cause, he cannot be sent in time, he will be sent to the point indicated as soon as practicable. Transportation will be furnished upon requisition of the commanding officer under whom the officer or soldier may be serving, or the surgeon where he is sick. Descriptive lists of the men will accompany them, and be turned over to the officer who may be charged with mustering out.

THE INVALID CORPS.

The order organizing the Invalid corps requires regimental commanders to make out, from information received from medical and company officers, and from their own knowledge, rolls of the names of officers and enlisted men who—*First*, are unfit for active field service on account of wounds or disease contracted in the line of duty, this fact being certified by a medical officer in the service, after personal examination; *Second*, are fit for garrison duty, this fact being certified by a medical officer, after personal examination; *Third*, are, in the opinion of the commanding officers, meritorious and deserving. Enlisted men, honorably discharged on account of disability, desiring to reenlist in this corps, will present themselves to the Board of enrollment in the district in which they reside, for examination by the Surgeon thereof, who shall examine them and report. The Board's certificate must state that the applicant—*First*, is unfit for service in the field; *Second*, fit for garrison duty; *Third*, is meritorious and deserving; *Fourth*, was honorably discharged from service. Medical inspectors and surgeons in charge of hospitals, military commanders, and all others having authority to discharge under the existing laws and regulations, are forbidden to grant discharges to any men under their control who may be fit for service in the Invalid corps. The Provost-Marshal-General is charged with the execution of this order, and the troops organized under it will be under the control of his Bureau.

ANOTHER ARMY CORPS IN KENTUCKY.

By order of the Secretary of War, all the troops in Kentucky not belonging to the Ninth Army Corps are to be organized into the Twenty-third Army Corps, and placed under the command of Major-Gen. HARTSUFF.

SURVEY OF PUBLIC LANDS.

The Commissioner of the General Land Office has issued instructions to the Surveyor-General of Kansas and Nebraska, directing that the appropriation of $25,000 for surveying the public lands in his surveying district be expended in surveying the lands lying along the proposed route of the Pacific Railroad, near Republican Fork, and east of the hundredth meridian west.

DISMISSED.

By order of the President, Lieut. JOHN D. BARD, Fourth Kentucky cavalry, has been dismissed the service of the United States.

DEATHS OF SOLDIERS.

The following are among the deaths of soldiers reported to-day;

Orville Wines, Co. H, 147th New-York.
Samuel Phillips, Co. B, 122d New-York.
J. L. Brewster, Co. C, 9th New-York.
Silas R. Colvir, Co. H, 86th New-York.
Titus A. Pike, 8th New-York.
Sergt. M. Banks, Co. A, 59th New-York.

DEPARTMENT OF THE GULF.

Gen. Banks' Semi-Official Report of his Operations in the Teche Country.

The Rebel Army and Navy Destroyed

WASHINGTON, Friday, May 1.

The *National Republican*, of this afternoon, publishes semi-official dispatches from Gen. BANKS, dated near St. Martinsville, April 17, from which it appears that when he left Baton Rouge three regiments of colored troops remained for its defence.

The results among others of Gen. BANKS' Expeditions, are: Accomplishing a march of over 300 miles; beating the enemy in three battles—two on land and one on Grand Lake; dispersing the rebel army utterly; destroying the rebel navy; capturing the founderies of the enemy at Franklin and New-Iberia, and demolishing the salt works ten miles southwest of the latter place; capturing the camp equipages of the enemy; also several guns and between 1,000 and 2,000 prisoners, and so deranging the plans of the rebels that they cannot for some months, if ever, reorganize their land or naval forces in that part of Louisiana.

Other successes of Gen. BANKS already known to the public are mentioned.

Our loss in the two land battles was about 600 or 700. Nothing could exceed the conduct of the officers and privates in Gen. BANKS' command.

The dispatches say we have not only destroyed the army and navy of the enemy, and captured his materials for reorganization of his forces, but we have also in our possession his ablest officers of the sea and land.

IMPORTANT FROM THE MISSISSIPPI

Gen. Grant's Army in Motion with Six Days' Rations.

TENTS AND BAGGAGE LEFT BEHIND.

CAIRO, Friday, May 1.

A steamer arrived to-day with dates from Milliken's Bend to Sunday evening.

Nearly the whole of the army at that point was in motion. They marched across, leaving tents and baggage behind. The soldiers took six days' rations.

Two tugs, having in tow four hay barges, run past the batteries at Vicksburgh last Saturday night. The rebels did not fire at them.

It is stated, on what is considered reliable authority, that Gen. OSTERHAUS now occupies Grand Gulf.

It is thought that the sanitary stores at Milliken's Bend, of which there are considerable quantities, will have to run the blockade.

THE WAR IN TENNESSEE.

Manœuvering of the Rebel Forces Under Johnston.

MURFREESBORO, Friday, May 1.

A deserter from the Second Kentucky, (rebel,) who left the regiment this morning, reports that BRECKINRIDGE advanced to Beech Grove and Hoover's Gap, twelve miles from here, on the Manchester Pike. He states that the entire rebel force is now in position from Beech Grove through War Trace, Guy's Gap and Shelbyville. The supposed intention of JOHNSON is to hold the gaps, and force Gen. ROSECRANS to concentrate his lines.

Little hope is entertained that JOHNSON will attack.

While dispatches detailing this activity on the part of the rebels must be necessarily silent regarding ourselves, it must not be supposed that Gen. ROSECRANS is idle or unprepared.

IMPORTANT FROM NORTH CAROLINA.

Skirmishing Near Newbern and Little Washington.

Defeat of the Rebels and Capture of Prisoners.

The United States steam transport *Escort*, Capt. R. WALL, (Capt. SHAW, Agent,) arrived at this port last night from Newbern, N. C., 29th and Hatteras Inlet 30th, at 6 A. M., making the passage in 55 hours. The *Escort* is the steamer which ran the rebel blockade at Washington, N. C., with Gen. FOSTER and the Rhode Island Fifth Volunteers on board. She comes to New-York for repairs to her hull and machinery, which are considerably damaged by the shots she received from the rebel batteries.

Several skirmishes had taken place in the vicinities of Newbern and Washington. The enemy have been repulsed at every point, and considerable numbers of rebel prisoners have been taken and sent into Newbern. Gov. HILL is supposed to be at Goldsboro with a portion of the forces with which he lately invested Newbern and Washington.

By the falling of a shed at Little Washington, N. C., during a severe gale on Thursday night of last week, Company D, of MIX's Third New-York cavalry, had nearly all of its horses either killed or disabled. The animals were of excellent quality, and thoroughly drilled in the service. The shed had been erected for several years, and was not suspected of being insecure.

FROM MEXICO.

Alleged Defeat of the French at Puebla—They are Driven from the City with Great Slaughter.

SAN FRANCISCO, Cal., Wednesday, April 30.

The *German Democrat*, of this city, publishes a letter dated sixty miles southeast of Acapulco, Mexico, April 15, giving the following highly important later news from Puebla. The letter says:

An express from the City of Mexico on the 9th of April has just arrived here.

On the 5th and 6th of April, the French, after severe fighting and great suffering and slaughter, succeeded in retaining a portion of Puebla.

On the 7th of April, the Mexicans repulsed them with still greater slaughter, driving them at the point of the bayonet beyond the outposts of the City.

The French then retired to Cholula, seven miles from Puebla, where they were fortifying themselves."

There is no means of knowing whether this news comes from a reliable source.

The *Democrat*, however, credits it.

[The reports from Vera Cruz, which we have by way of Havana, are to the 16th of April,—so that the above intelligence can hardly be regarded as reliable.—ED. TIMES.]

Heavy Sales of Government Bonds.

PHILADELPHIA, Friday, May 1.

The sale of "five-twenties" at the various agencies to-day reached five millions, distributed as follows:

New-York and New-Jersey	$2,150,000
Boston and New-England	1,500,000
Philadelphia and Pennsylvania	865,000
Ohio and other Western States	300,000
Washington	75,000
Maryland	60,000
Delaware	60,000
Kentucky	50,000

From a careful average made by Mr. JAY COOK, the Subscription Agent, it is estimated that over 5,000 individual subscriptions have been made throughout the land to-day, including the small amounts of the industrial classes as well as the larger amounts of capitalists and even Cabinet Ministers.

A Fund for the Widow and Children of the Brave and Lamented Gen. Reno.

BOSTON, Friday, May 1.

Several citizens of Boston have raised $11,000 for the widow and children of the brave and lamented Gen. RENO, who was killed in the battle of South Mountain. Ten thousand dollars have been invested in securities, and $1,000 placed at the immediate disposal of Mrs. RENO.

THE WAR IN THE FAR WEST.

Movements of Col. Phillips, with the Indian Brigade—Activity of the Rebels South of the Arkansas—Two Successful Engagements with Rebel Guerrillas—What Has Become of the "Lost Army," &c.

From Our Own Correspondent.

Leavenworth, Kansas, Thursday, April 16, 1863.

The most important military news that can be chronicled, in connection with this section, relates to the movements of the indefatigable Colonel commanding the Indian brigade, William A. Phillips, of the Third Indian regiment.

By dispatches received here yesterday, *via* Fayetteville, Ark., it appears Col. Phillips now occupies and holds *all* of the Cherokee Territory—the country north of the Arkansas River. The last dispatches bear date April 14, at which time his headquarters were at "Camp Park Hill," the residence of Chief John Ross, about twenty miles west of Tal-lah-quah. At the same place the hospital of the brigade is situated, and it is also the camp of the loyal Indian refugees, who for a year past have been encamped in this State, under the control of the Indian Bureau. These unfortunate people are delighted to return to their homes, and under the protection of the brigade are actively engaged in putting in a crop. This is the first step toward the right and sensible policy with regard to the Indian Territory, and it is to be hoped that a sufficient force will be maintained there to protect them. Col. Phillips had been compelled to sustain them from his own commissariat. His activity in securing and grinding during the past three months all the grain he could obtain in Northwestern Arkansas, has enabled him to do this without diminishing supplies for his troops. The Indian Agents for the various tribes will take charge of the refugees, as speedily as practicable, and thus relieve the Colonel commanding from the burden, and enable him to devote his whole attention to protecting them and subjugating rebels.

Col. Phillips reports great apparent activity among the rebels south of the line of the Arkansas. A considerable portion of the Indian brigade now occupy positions on the north bank of the Arkansas. The Union flag flies over Fort Gibson. The rebel pickets line the south side of the river, and continual firing occurs between the posts. Gen. Steele (rebel) is reported to have taken command. From Fort Gibson to Fort Smith, Arkansas the rebels have strong detachments guarding all the fords, which are deep and difficult. Their apparent object is to prevent the Indians from communicating with Col. Phillips. The agents of that officer, and the policy dictated by Gen. Blunt, has had its effect in causing a majority of the Creeks, the Cherokees and Choctaws in the rebel service to desire to submit to the National authority. Communications have been received from Col. Drew, (Cherokee,) Capt. Vaun, and the Creek leaders in relation to this matter. Before this reaches you Col. Phillips will have consummated a flank movement which only the want of forage and supplies has prevented his hitherto carrying out. It is probable that the enemy will be engaged in front on the line of the Arkansas, while a considerable body of troops move across it higher up, and thus menace their flank and rear. The results of this movement will be seen—first, in the successful organization of the Fourth and Fifth Indian regiments; and secondly, and of more importance, it will bring an active and well handled Union force within striking distance of the upper part of the Red River valley.

Col. Phillips also reports two successful engagements with rebel guerrillas. The first was at Lindsay's Prairie, (near old Fort Wayne, Benton County, Ark.) It was a complete defeat and rout of the guerrillas, their Captain and seven men being killed and a number wounded. The other fight was below the Illinois River, near Cane Hill. The rebels attempted to surprise a Union camp and failed, being badly cut up in the attempt. A number were killed, either in the attack or while swimming the river in an attempt to escape.

The field and line officers apppointed by the President to raise and command the Fourth and Fifth Indian regiments, left Fort Scott ten days ago to report to Col. Phillips. It is reported a considerable number of recruits have already been raised, and were waiting their arrival. The three regiments now in the field, have on their rolls at least 1,000 men each, and will report for duty at least 700. The two regiments to be organized will make a force of 5,000 Indians. In addition to these, there are two full Union regiments raised at Fayetteville. Col. Harrison, of the Second Arkansas, is in command of that place, and has been actively engaged in recruiting. I am informed that he draws supplies for 1,600 men, which would show that two regiments are raised.

It is very evident that the presence of Kirby Smith and Sterling Price in the rebel Trans-Mississippi Department, has raised the hopes of the Confederates thereabout, and inspired confidence in their men. Guerrillas are becoming quite active in the border counties of Missouri, and from indications and information received, it is evident that Price, who is now at Little Rock, is straining every nerve for a campaign in Missouri and Northern Arkansas.

The Times, of the 11th, inquires editorially for "A Lost Army," alluding to the Army of the Frontier. Allow me to answer the query. After having traversed the muddy roads of Southwestern Missouri, without an apparent object since the superseding of Gen. Blunt, it is now concentrating and refitting at Springfield, Mo. Maj.-Gen. Herron is placed in command. Maj.-Gen. Blunt, under whose leadership that army made so brilliant a record, would seem virtually to be laid on the shelf, by being placed in command simply of the District of Kansas. A portion of the Kansas division arrived at Fort Scott, under commands of Cols. (now Gen.) Ewing and Judson. The Tenth and Eleventh regiments were marched under orders to the localities in which they were recruited, and thus allowed to go home till the 29th, when they were ordered to reassemble at Fort Scott.

On the 12th inst., a dispatch arrived at Fort Scott from Gen. Herron, ordering these regiments to return to Springfield immediately. An order was issued by Gen. Ewing this morning, directing the companies to reassemble at Fort Scott on the 23d inst. There will then be at Fort Scott the Sixth, (cavalry,) Tenth and Eleventh (infantry) Kansas, and the First and Second batteries, Capt. Allen and Maj. Blair. At Springfield, or in the District of Southwest Missouri, there remains the Second and Thirteenth Kansas and Rabb's battery. The Third and Ninth Wisconsin are at Forsyth with Col. Weer, of the Tenth Kansas, lately in command of the Kansas division. The Second and Third divisions (Herron's and Totten's old division) are in the vicinity of Springfield. The balance of the Kansas division is under command of Col. Phillips.

What Gen. Blunt intends doing no one knows. At present he is actively employed in arranging for the suppression of bushwhacking and the defence of the border counties of Missouri, now included in the District of Kansas. Great activity prevails in all the Bureaus of this District. Portions of two regiments from Colorado are now on the march from that territory to this place. Col. Chivington, of the First Colorado (the hero of the campaign of New-Mexico,) is in command. The force consists of a battalion of the First (cavalry) and the Third (infantry) regiment, Col. Larimer. These regiments have full ranks, and will be brigaded under Col. Chivington. These troops, with the Ninth and Twelfth Kansas, the First colored, the five Indiana regiments, and five or six batteries, with a couple of regiments of Missouri militia and two Arkansas regiments, constitute a larger force than that with which Blunt won the victories of Newtonia, Fort Wayne and Cane Hill. It will constitute, with other forces that are expected, a respectable army.

Gens. Blunt and Ewing, with Senator Lane, are all in the State. Gen. Lane is about to leave for Washington. It is rumored that he is to have a recruiting commission again, and will return empowered to raise several more regiments of negroes. Brig.-Gen. Ewing is ordered to report to Gen. Herron for duty.

Quite a number of changes have occurred lately in military circles. Lieut.-Col. Burris, of the Tenth Kansas, the popular and efficient commandant at Fort Leavenworth, has been relieved of that post at his own request, and ordered to report for duty to his regiment. He carries with him the good wishes and friendly feelings of all, officers and citizens, who have come in relations with him. Col. C. S. Adams, of the Twelfth Kansas, is in command at Fort Leavenworth. Maj. Herring, of the Third Wisconsin cavalry, has been relieved of the command at Fort Scott, and placed upon the Staff of Gen. Blunt. Maj. Blair, of the Second Kansas, commanding the Second Kansas battery, is in charge of that post. There will be promotions in the field of at least three Kansas regiments, the First, Seventh and Eleventh. The Colonels have been promoted to Brigadier-Generalships, and the vacancies will have to be filled. In the Eleventh, the promotion of Col. Ewing and Lieut.-Col. Thomas Moonlight (who, with the rank of Colonel, will continue to act as Chief of Staff) makes two vacancies.

The promotion to Brigadiers of Cols. Deitzler, Lee and Ewing, three gallant Kansas officers, is generally received with favor, even among the factions of this factious State. As we hope that each of them will honor their new dignity equally as well as they did their old, I propose to give a few biographical items in relation to these gallant officers.

Brig.-Gen. George W. Deitzler was born in Pennsylvania. He is a man of 35 years, and has been a citizen of Kansas since the Summer of '55. He was one of the most active and reliable Free State leaders. During the siege of Lawrence by the Border Ruffians in the Winter of '55–'6, he took an active part in the defence of the town, and was a member of the Free State Committee of Safety. When the town of Lawrence was sacked in May, 1856, Col. Deitzler was arrested on a charge of treason, and kept confined in the United States Camp at Lecompton, then under Gen. Sumner, until the following September, when, with Judge Smith, John Brown, Jr., and others, he was released. He was the speaker of the House of Representatives of the first legal Territorial Legislature. When the first call for volunteers was made, Gen. Deitzler took command of the First regiment. That corps was raised as three months' volunteers, but when just completed the call came for 300,000 for three years. The regiment was mustered in for that period four or five days after the proclamation was issued. Col. Deitzler must necessarily be among the ranking Colonels in the volunteer service. Since that day the First Kansas, with Col. Deitzler, has been constantly in the field. The Colonel was wounded at Wilson's Creek. After ten months' constant service, the regiment came home, and remained in the State for two months. It then marched to Tennessee, in May, 1862, and has been in that State and Mississippi ever since. It participated in the battles of Holly Springs, Corinth, Vicksburgh, and a number of other engagements. Col. Deitzler, since the early part of 1862, has been in constant command of a brigade. The promotion is well earned, and worthily bestowed. Gen. Deitzler is a reliable, brave and efficient officer, and will always be found a safe one.

Brig.-Gen. Albert Lee, lately Colonel of the dashing Seventh Kansas, (Jennison's old regiment,) is a young and talented officer, whose active career in this State and in the service of his country, do him great credit. He is about 28 years old, is a native of Central New-York. His father was a member of the Congress preceding the last. Gen. Lee is a lawyer, and came to Kansas as early in 1857. He settled at Elwood, opposite St. Joe, and early distinguished himself by an uncompromising and earnest Anti-Slavery policy. In 1859 he was elected Judge of the First Judicial District, under the Wyandot Constitution. When Col. Jennison raised the Seventh regiment, Judge Lee raised a battalion and was commissioned as Major. When Col. Jennison resigned, Major Lee was commissioned as Colonel. Since then the Regiment has added new laurels to its brilliant history, and the career of its young and dashing leader, while acting as Chief of Cavalry in Grant's army, has become part of the history of the war in the Mississippi Valley. Gen. Lee is a brilliant officer, and a man of active and vigorous intellectual calibre.

Brig.-Gen. Thomas Ewing, Jr., was lately Colonel of the Eleventh regiment, and entered the service last August. He participated in all the engagements of the Western Arkansas campaign. Gen. Ewing is a native of Ohio, and a son of Hon. Thos. Ewing. He came to Kansas in the Spring of 1857, and was elected Chief Justice of the State under the Wyandotte Constitution. He resigned that position to enter the army. He is but a young man, being not more than 32 or 33 years of age. Gen. Ewing will undoubtedly do credit to the commission he bears. His brother, Gen. Hugh Ewing, has distinguished himself in the army under Grant and Rosecrans. His wife is a sister of Gen. J. T. Sherman and Senator John Sherman, of Ohio. Gen. Ewing is a man of fine culture, eminent intellectual calibre and commanding appearance, and has already distinguished himself in his past military career, brief though it has been.

The activity of the bushwhackers continue unabated in Jackson, Clay and other border Counties. One thing is certain, that Col. W. R. Perrick, the vigilant and faithful commandant at Independence, will not find him thwarted, but encouraged to proceed with his vigorous policy. Col. Perrick is one of the loyal Border State officers, who, understanding the rebellion and the principle of war, proceeds to logically carry out the policy of subduing the rebels and supporting Union men. Like Gen. Neil, he has been villainously abused. Col. Perrick is a native of Kentucky, and when the rebellion broke out, was a druggist in St. Joseph. There he was universally esteemed as a quiet, estimable citizen, of no offensive political proclivities. No one suspected the qualities he has since developed, but when the war broke out he was among the first to take arms for the Union, in whose service he has been constantly since.

Gen. Blunt has received authority to raise a mounted battalion as a body guard. This force will be armed with Henry repeating rifles, revolvers and sabres. This service will undoubtedly cause the battalion to fill rapidly. Lieut.-Col. Ellithorpe, of the Second Indian regiment, has been detailed to command this corps.

Nothing is yet definitely known as to the members of the Commanding General's Staff. Lieut.-Col. Thos. Moonlight, Chief of Staff, is to be promoted to a Colonelcy. No promotion will be more deserved than this latter. Col. Moonlight is one of the most efficient and able officers in the service. He has served in the regular army, but was a farmer in this county when the war broke out. The Colonel was the first man in the State to call for and raise a company, which he did for the artillery arm. Owing to the political dispute, he failed to get a commission, and finally joined the Fourth regiment. During the campaign of Lane in Western Missouri, it was Capt. Moonlight's battery that did the work; also at Drywood, Osceola, and elsewhere. When Gen. Blunt assumed command in Kansas, Capt. Moonlight was made an Assistant Adjutant-General. He was afterward commissioned Lieutenant-Colonel of the Eleventh regiment. In every place he has distinguished himself, and will win before the war closes the brevet, if not the full rank, stars of a Brigadier-General.

Gen. Blunt abolished martial law in this city, our new Mayor having declared himself able to protect the Union people and suppress lawlessness. That Mayor Anthony will do this, none who know him doubt. Already the civic administration begins to feel his energy. The best police force Leavenworth has ever had, has been appointed. It will be uniformed.

Farmers throughout the State are busy with their Spring work, and everything promises favorable for abundant harvests. A large amount of Winter wheat was sown last fall, and promises a bountiful return. Great attention is being given to the sorghum cane, and the raising of tobacco and cotton. The raising of sheep has also received a great impetus.

Quite a noteworthy change has lately occurred in newspaperdom in this section. T. Dwight Thacher, Esq., editor and proprietor of the Lawrence *Republican*, has purchased and will edit the Kansas City, Mo., daily *Journal of Commerce*. As Mr. Thacher is not only a most vigorous writer, and a scholar of excellent culture, but an eloquent and fervid orator, the friends of freedom can but congratulate the cause in Missouri that it has gained one who will not only do yeoman service as an editor, but in other respects be of great and important value in any public career where it may be the good fortune of the emancipation cause to need his services.

LOCAL INTELLIGENCE.

Moving Day.

Gothamites seem to move annually with the devout punctuality of a hegira. May-day is the cartman's harvest, the junk-dealer's delight, the old clo'man's rejoicing, the juvenile paradise of confusion, and all sensible people's horror. This year our necessary evil came in as mild a form as possible. Never was there a more propitious sky. Old Sol smiled serenely on the metropolitan upheavings, and though a somewhat free and easy gust would occasionally lift a box-cover, or raise a blanket, and expose more than tidy housekeepers care to show to the general public, the weather was quite as favorable as could rationally be expected in these days of tribulation and uncertainty. There were, of course, whole corps of draymen and regiments of laborers reaping the fruits of the harvest. Such sallies upon furniture, such onslaughts upon looking-glasses, such charges upon chairs, and such an appearance of debris on the battle-field can only be appreciated by these who have indulged in the delights of such migrative campaigns. If "three movings are as bad as a fire," as the saying goes, one moving must certainly be both a tax on patience and pocket. It would be a good idea to have a company to insure people against moving. The scrip would certainly always remain above par, and it may be questioned whether it would not command a very high premium. Much of the moving this year was effected on Thursday—making that day more effectually a day of fasting, though by no means more characterized by thanksgiving and prayer, than it would otherwise have been. Not to have moved, is not to know the whole of human misery. The insolence of landlords, and the spurns which patient movers from the unworthy bear, are enough to entitle them to the designation of martyrs. Blessed, therefore, are they who do not move; who live in homesteads, or pay their rent, or do not get too proud to stay where they are, or abstain from offending their house-owners, or in any way manage to maintain their local habitation throughout May-Day. Or, if people must move, blessed are they if they can get such a day as yesterday on which to do the direful deed.

Naval.

IMPORTANT CHANGE IN THE PLAN OF THE QUINTARD IRON-CLAD BATTERY.

Some excitement was occasioned yesterday in naval circles by the announcement that the iron-clad battery *Onondaga*, building by Mr. Geo. Quintard, for the Government, was not to be finished. She was to be launched next week, and being a novelty in architecture, considerable interest was felt in her progress. It appears that orders have been received here, from the Navy Department, directing Admiral Gregory to stop the preparations for launching, and to commence at once improvements in her armor, which it will take some time to execute. She is to have a wooden and iron mail over the hull, as it stands at present. There being no wooden packing to the ship, and the iron outside having been fastened with through bolts to the hull, it was suspected all along that some radical change would be made in the plan of her construction. The *Onondaga* has already been described in these columns. Mr. Rowland is building her on Mr. Quintard's plan, and expected to have her ready for launching by the 20th ult. She is 1,250 tons burden, about 200 feet long, and of proportionate width and depth.

INTERNATIONAL COURTESY.

The Navy Department has granted permission to the French Admiral on this station to repair one of his frigates at the Brooklyn Navy-yard, and the authorities at the Yard are ready to receive the vessel, which will come up to-day.

MAILS FOR THE BLOCKADE FLEET.

The U. S. steam gunboat *Ottawa* will leave this port on Tuesday next for the rendezvous of the blockade fleet. Letters, papers and parcels, properly directed and sent to the Brooklyn Lyceum, will be cheerfully forwarded.

The New Provost-Marshal.

Col. Nugent, of the Sixty-ninth regiment, recently appointed General Provost-Marshal for this District, in place of Simeon Draper, resigned, entered upon the duties of his office yesterday forenoon. He has established his headquarters at No. 27 Pine-street. The subordinates appointed by Mr. Draper will be retained for the present, and the general system pursued by the late incumbent will be followed by his successor. His jurisdiction extends over the first nine Congressional Districts, including this City, Brooklyn and Staten Island. Preparations will be immediately made to carry out the Conscription act, as soon as its execution shall be ordered from Washington.

Sale of Leutze's Last Pictures.

Messrs. D. W. Ives & Co. announce the sale of some of the lately executed works of E. Leutze. A free exhibition of this collection will be opened on Monday next, at the Derby Gallery, on Broadway, above Houston-street, and continue until the evening of the sale, which takes place on Thursday, May 7. This collection comprises many of the finest pictures by this artist, and includes his celebrated one of "Lafayette Met by his Family in the Prison of Olmutz," which was in the Academy exhibition of last year; "Spray and Bubbler," a picture which to the casual observer will be simply a delineation of the sea breaking upon the shore, but which, if he studies it closely, will resolve itself into an army of water-spirits battling against the rocks, only to be beaten back or cast up with the surf upon the shore; "Unexpected Friends," representing a wounded knight, imprisoned in a tower by a neighboring prince, who has entrapped him while on the chase, and now holds him confined until ransomed—his daughter is with him, and the "unexpected friends" appear in the shape of a Robin Goodfellow and his raven, who, having fround their way into the prison from above, by a rope-ladder, are ready to effect their deliverance; "Prairie Bluffs," depicting a herd of half-tamed horses being driven into camp before the coming storm breaks—the yellow bluffs of the prairie are seen in the background, relieved against the stormy sky; "Ichabod Crane and the Headless Horseman," illustrating a well-known story in *Irving's Sketch Book*; "The Deserted Hall," "Entertaining the Messenger," and "Tired of Waiting," each architectural in their character, and fine examples of the artist's power in this line; a "Gentleman of the Time of Charles II." and a "German Knight," besides the original sketch in oil of the historical picture, "Emigration to the West," in the Capitol at Washington, and several study heads of females in the same work. An opportunity of seeing so many fine pictures by this artist may seldom, if ever, again occur, consequently all lovers of art should avail themselves of this coming exhibition to carefully study his works therein to be found.

James T. Brady on the End of the War.

James T. Brady, Esq., will address the citizens of Brooklyn at the Academy of Music, on Monday evening next, upon the "End of the War." The address will be delivered under the auspices of the Mercantile Library Association, and an overflowing house may be anticipated.

GENERAL CITY NEWS.

Services in the Forsyth-street Church.—Rev. James O. Rogers, the former paster of the Alanson Methodist Church in Norfolk-street, will preach to-morrow morning and evening in the Forsyth-street M. E. Church. This announcement to the Methodist fraternity of that part of the City will be sufficient to attract a large audience. One of the attractions of Mr. Rogers consists in his vocal abilities, and he takes occasion during the delivery of his sermon to sing with considerable pathos a hymn appropriate to the theme.

Trow's City Directory for 1863–64.—This publication is now in process of compilation, under the supervision of Mr. H. Wilson, No. 50 Greene-street. Canvassers will soon be going their rounds, and they should be afforded all possible facilities by our citizens, each one of whom has an interest in seeing the Directory as accurate and complete as possible.

BROOKLYN NEWS.

Sailor Found Drowned.—An inquest was held, yesterday, upon the body of a United States sailor, found drowned near Fulton Ferry on Wednesday. He was a large man, about six feet in height, with brown hair. His face had been eaten away by fishes, and there were other indications that he had been in the water for a long time. The sum of $15 in greenbacks was found tied in his shirt. There was nothing about the clothes to identify him. A verdict of found drowned was rendered.

Fire.—A fire broke out in the house of Mr. James Martin, in Eighth-street, near Second-avenue, Gowanus, on Thursday evening, caused by some straw igniting from the stove. Six children had been left to take care of the place during the parents' absence, and narrowly escaped suffocation. The damage did not exceed $50—insured in the Atlantic Company.

The Late Railroad Accident.—John Ryan, the driver of the Fulton-avenue car, which run over the boy, William H. Welsh, on Sunday last, causing his death, was held, by Coroner Norris, to await the action of the Grand Jury, on the charge of carelessness. The accused was bailed yesterday in the sum of $500 to await trial.

LAW REPORTS.

United States Circuit Court—May 1.

Before Judge Nelson.

The panel of Grand Jurors was filled up this morning, and the jury having been sworn, were charged by the Judge briefly as to the matters which would come before them. There were but few cases—one of murder, one of cruel and unusual punishment, one of larceny, and one of counterfeiting a fifty cent postage stamp, to which the Judge called their especial attention, because, as he said, it was reported that there were a good many counterfeits of this kind in circulation, and a prompt administration of justice might check the crime. The Judge also congratulated them that there were so few cases to come before them, the result, he thought, of prompt and thorough justice heretofore.

The jury then retired to their duties.

Verdict Against Mayor Opdyke on a Blanket Contract.

SUPREME COURT—CIRCUIT.

Before Justice Hoyt.

Henry Swift et al. vs. George Opdyke et al.—This action was brought to recover a balance on account of a quantity of army blankets sold to defendants in August, 1861. The amount claimed by the complaint was $3,465 75. The defence set up was a breach of contract and a set-off of $3,520.

The jury rendered a verdict for the plaintiffs for $1,654 99.

The Merchant Will Case.

SURROGATE'S COURT.

Before Hon. G. F. Tucker, Surrogate.

The claimants under the will having rested upon the testimony of the two subscribing witnesses, Judge Pierrepont opened the case for the contestants, charging that the will was a gross fraud, as John L. Harley, who had been indicted for forgery by the Grand Jury, and who alone pretended to know Merchant, and on whose evidence the entire case rested, was wholly unworthy of belief.

Mr. Gibbons was the first witness, and was called to contradict Harley as to the weather on the 11th of March, 1861, when it was claimed the will was executed—Harley stating that it was a drizzly day, the witness stating how the barometer and thermometer stood by his record, which he had kept for thirty years; and that the wind was west, with a moderate breeze, and the sky clear all day.

Messrs. Eickler, Miller and Hoyt were then called to contradict Harley on other points, he having testified that on the day he witnessed the will, he went up to see Eickler, for whom he said he had a suit in the Fifth District Court. The records of the District Court were produced to show that no such suit was pending on the 11th of March. And Mr. Eickler was called, who testified that Harley never had a suit for him.

Edward A. Stanbury was then called, who testified that he was the Secretary of the Metropolitan Insurance Company; that he considered himself a good judge of handwriting, having often been called as a witness as an expert; that Merchant had been a stockholder in his company; that he knew him, and had seen him write; and that no part of the body or the signature of the will was in his handwriting.

The following wills were duly admitted to probate: Gophar R. Jarvis, John Albert Fanton, Ann Healy, Henry H. Barrow, Anton L. Bohle, Catharine Shaw, Jabez W. Lyman.

Decisions.

SUPREME COURT—CHAMBERS.

Before Justice Miller.

In the Matter of the Guardianship of Green, &c.—Reference ordered to take proof of facts, &c., and report.

Friday, May 1—P. M.

The public left with the Treasury of the United States, in this City, to-day, over *five millions of dollars*. The Deposits on 5 ℔ cent. interest, amounted to $2,197,000, which, we are authorized to say, fills up the grand Deposit line of one hundred millions, authorized by Act of Congress. The Government can no longer receive Money on temporary Deposit at any rate of interest whatever, until a portion of the present maximum is drawn out, of which due notice will be given. There is no immediate prospect that any considerable sums will be withdrawn. The conversions of Currency, to-day, with the new 6 ℔ cent. Stock, of 1882, amount to $3,425,000, of which $1,225,000 was through the Assistant Treasurer, and $2,200,000 through the Sub-Loan Agents in Wall-street, Messrs. Fisk & Hatch, Vermilye & Co., and Livermore, Clews & Co. The Customs Duties deposited are $142,000. The May 1 coupon on the New Loan is now being paid at the Sub-Treasury. It was anticipated that very many parties would date their new subscriptions from this day, so as to hold an even coupon for the 1st November, but the amount thus subscribed goes far ahead of the most sanguine calculations of the Treasury Department and its Loan Agents. The subscriptions for some days to come will no doubt continue large. Indeed there is every reasonable prospect, now that the privilege of depositing Money at 5 ℔ cent. is exhausted, the public will increase their conversions of Currency into this Stock, up to the 30th of June, when *this* privilege, at par, will also cease under the Act of Congress.

There is an extraordinary speculative excitement on the Stock Exchange to-day, running chiefly on the Railway Share list, the business on which, at rapidly advancing prices, is enormous. Nearly one-half the Capital Stock of the Harlem Company changed hands, the extreme rise since Wednesday night being eleven per cent., and since Tuesday morning last seventeen per cent. The highest sales of Hudson River Shares ever known in the market were made this afternoon at 120¾@121 per cent. Cleveland and Pittsburgh Shares were done as high as 85 per cent., a rise of about 15 per cent. since last week. The shares of the Erie Company were 85 ℔ cent. for the Common, and 103 for the Preferred, and these figures are quoted as probably the most moderate among the Railway advances on Wednesday's prices. Michigan Southern sold up to 70¼, and Cleveland and Toledo 110 ℔ cent. Nearly all the active descriptions were taken by the thousands of shares, and several of them by the tens of thousands! The Miscellaneous Shares, such as Pacific Mail, Quicksilver Company, were equally strong. The bidding for the Railway Mortgages and for the City Bank Shares was firm, and Missouri State 6 ℔ cents rose to 63½ ℔ cent. The business in Government Stocks other than the New Loan of 1882, is moderate, owing to the limited offering of the 6 ℔ cents of 1881. The demand is active for Treasury paper of every description, at full rates. The business in the 12 months' Certificates at the counters of the Money Brokers, is much larger than in the Stock Exchange Board, at 99¾@100 for the Currency Interest, and 101¾@102 for the Gold Interest paper.

The English news in the morning papers attracted very little attention, after the early sales of Gold Coin at an advance of 1½ ℔ cent. The diplomatic trouble with Mr. Adams, to which it refers, was not deemed of sufficient importance to check the general rise in Stocks, or to advance materially the price of Gold and Exchange. The latter was dull on London, at 166 ℔ cent., and Gold left off with sales at 150½@151 ℔ cent., after selling at 151¼@151½ early in the morning.

At 4 o'clock, there was some abatement in prices on the Share list, chiefly in Harlem, for which there was certainly room, after the heavy sales at the Second Board, at 85@87 ℔ cent. The following figures were quoted in comparison with the closing rates on the eve of Fast Day:

	Wed.	Fri.		Wed.	Fri.

TALLOW—Sales 150 ℔s. at 11c.@11⅛c. ℔ ℔.

TOBACCO—The business in this line, in April, Messrs. M. Rader & Son notice thus: The requirements for immediate orders absorbed about 1,500 hhds. of the new crop, at prices which proved the market still well sustained for the better sorts; on common grades, a disposition is shown to concede somewhat. The most interesting feature of the month is the large arrival of stocks, which, compared with last year's corresponding season, is fully double, being for the first four months of this year, 25,810 hhds., against 13,105 hhds. same time last year. There is no doubt that the whole crop will be in as early as the end of June or middle of July next. A great part of these receipts goes into the warehouses without being inspected, the owners preferring to await an active demand, premising that later sampling will show the goods in improved condition. All sections of the West and Southwest being now represented among the samples offering on the market, we can now speak with more assurance of the style, condition and quality of the last crop, and find our earliest communications on this subject fully confirmed. The main feature in the crop is of being in good condition, and the greater part of good and sweet flavor. In the absence of an active demand, as long as the fluctuations in gold and exchanges continue, we must look for a further large accumulation of stocks, and receivers have made arrangements to carry the same till a change for the better should occur, not disinclined, however, to meet fair offers, relying, among other causes, that toward the Summer, when it will be ascertained what extent of crops may be safely calculated on from the better sections of the Cumberland and Tennessee, prices would certainly go higher. Our quotations stand at present: Lugs, 13½c.@16c.; Low Leaf, 15c.@18c.; Medium Leaf, 17c.@21c.; Good Leaf, 19c.@25c.; Fine Leaf, 22c.@29c; Selections, 25c.@33c. ℔ ℔. The transactions in Spanish Leaf are reduced to a very small compass, barely reportable, as the excessive high prices have forced manufacturers almost entirely to do without this article. For Cuba we have no inquiry at all, and Yara sells here and there, in small parcels, at 45c., in bond, leaving it with buyers to pay the duty. Havana Fillers are held at from 90c. to 110c., with next to nothing doing. A cargo of 480 ceroons, from St. Domingo, was disposed of for Holland. Seed Leaf Tobacco has also been less active. Manufacturers cannot so readily as heretofore dispose of their stocks are buying but little of the old crop, which, however, is firm at previous prices, as but a very light stock is left on hand. The new crop has not fairly entered yet on the market, as no one seems disposed to speculate in this sort, except at prices which might hold out inducements, and considerable loss to speculators. Manufactured Tobacco has been inactive most part of the month. Some holders being disposed to lower their prices, more has been doing during last week in Navy pounds and small work, within the range of 45c.@52½c.

WOOL—The business in this line, during April, Messrs. TELLKAMPF & KITCHING review thus: "During the month of April, but very little was done in comparison with the transactions of former months. At so unfavorable a period the auction sales both here and at Boston, of domestic fleece, California and foreign wools, could not be expected to go off well. They would, however, have proved better, if the confidence of buyers had not been shaken by the supposition that some parcels were bid in, yet this cannot be said of the domestic fleece and California wools, the prices of which came nearer those of private sale. The market has, nevertheless, become firmer than it was before the auctions, without improvement in prices, however. Our light stock of domestic fleece and pulled wool, is decreasing at the reduced rates. Fine grades have declined most, and the lower ones least. Fine foreign Wools, Cape, Mestizo, etc., offer a good selection at about 10 to 15 ℔ cent. lower prices, which are not satisfactory to importers. Foreign medium qualities, adapted for army goods, have been slow of sale, for want of new Government contracts. There is a good stock of these descriptions of Wool, which at the present reduced rates will enable our manufacturers to stand against foreign competition. Foreign low Wools, for blankets and carpets, have nearly maintained their prices. The stock of it continues very light, and the supply from abroad limited for some time to come. The accounts from foreign markets do not mention much change. All the desirable wools in the English markets are firm, and only faulty and poor kinds are neglected at reduced prices. Prices of wool on the Continent are represented as somewhat easier, occasioned by the dilatory disposal of fabrics.

NEWS OF THE DAY.

THE REBELLION.

A somewhat more definite knowledge of the movements of the Army of the Potomac begins to reach us. It appears that the Rappahannock has been crossed at three or four different points, both above and below Fredericksburgh—certainly at Port Royal, near the point where Franklin crossed before the battle of Fredericksburgh, and at Kelly's Ford, several miles above the town; and probably at United States Ford, still further up. Accounts state that there was considerable fighting at the crossing below, but none of consequence above. Full details of these movements will be found in the letters of our special correspondents. Gen. Hooker appears to have commanded the movement at Kelly's Ford in person. A report reached Philadelphia last night, and was telegraphed to us, that Gen. Hooker, with 50,000 men, had fought a battle and won a victory. This is about the number of men supposed to have crossed at Kelly's Ford, and the report, though unofficial, may have some foundation in fact.

An arrival at Cairo from Milliken's Bend brings the important intelligence that nearly the whole of the army at that point was in motion, with six days' rations, leaving tents and baggage behind. It is also reported that Gen. Osterhaus' now occupyies Grand Gulf, between Vicksburgh and Port-Hudson.

The steam transport *Escort* arrived at this port last night, from Newbern, N. C., on the 29th ult. She brings the report that several skirmishes have recently taken place in the vicinity of Newbern, and also near Little Washington. The rebels have been defeated in every case, and a considerable number of prisoners have been captured. It is supposed that Gen. Hill is now at Goldsboro' with a portion of the force recently investing Little Washington and threatening Newbern.

Our Vicksburgh correspondence, to the 23d inst., gives an account of the running of the rebel batteries by a fleet of transports, six in number—the *Tigress, Empire City, Cheeseman, Freestone, Moderator* and *Anglo-Saxon*. The *Tigress*, loaded with supplies, went ashore and was sunk, but the other four all got by in comparative safety. The dispatch from Memphis, published yesterday, stating that four of them had been sunk, is therefore untrue.

Semi-official dispatches from Gen. Banks, relating to his operations in the Teche country of Louisiana, have been received in Washington. He says the forces under his command have not only destroyed the army and navy of the enemy, and captured his materials for reorganization, but have, as prisoners, his ablest officers of the sea and land. The number of prisoners captured is between one and two thousand. Our loss in the two last battles fought by Gen. Banks, was from six to seven hundred killed and wounded.

The Leavenworth *Conservative* learns that Gen Blunt has ordered the First Kansas Colored (Col. Williams,) and a section of Major Blair's battery, to Baxter's Springs, in the extreme southeastern portion of Kansas. This movement has been considered necessary from the threatening state of affairs in Northwestern Arkansas. Since the return of Sterling Price the movements in Arkansas and the Indian country have been of such a nature as to lead to the belief that the troops along the southern border have work before them. Col. Cooper is leading the movement from the Canadian River. He is now in command of the Texan deserters from Hindman's army, and has gathered about three thousand men. Gens. Steele and Cabell command the rebel forces opposed to Cols. Phillips and Harrison. Both were formerly Captains in the United States service. Steele surrendered a post in the Indian country to the rebels at the beginning of the war. Cabell was in the First United States infantry, and is a son-in-law of Gov. Rector, of Arkansas.

Gen. Sterling Price, we learn from the St. Louis *Republican*, was at Little Rock, Ark., only some ten days ago, at the head of 8,000 disheartened and broken-down troops. He made a speech to them, promising to conduct them into Missouri, but it is said to have fallen upon indifferent believers, and it is added that his force was being diminished rather than increased after this effort. The failure of Marmaduke and Burbridge in the foray upon the Southeastern part of the State, where they expected to capture Commissary's stores, clothing, horses, &c., enough to supply the whole army under Price, must operate to destroy all hope of a successful raid into Missouri by "Old Pap," and will go far to preserve the peace in every part of the State.

Information has reached Louisville that a detachment of a force sent out by Gen. Hobson, of the Fifth Indiana and Fourteenth Illinois cavalry, on Saturday, captured near Jimtown and Scottsville, Ky., twenty-three rebels, thirty-five horses, two mules, one yoke of oxen, sundry small arms, and a quantity of merchandise found with the rebels. They also destroyed a large grist-mill which was grinding for Gen. Morgan's forces.

The sales of five-twenty-year bonds yesterday, at the various agencies, reached the enormous sum of five millions. It is estimated that over five thousand individual subscriptions were made.

GENERAL NEWS.

Additional news from Mexico has been received by way of San Francisco. The advices from Puebla are to the 7th of April—two days earlier than were received a day or two ago by way of Havana. The character of these advices is totally different from the version of affairs given by the French. On the 5th and 6th of April, according to the dispatch, the French, after severe fighting, succeeded in gaining a portion of Puebla, but on the 7th the Mexicans drove them out with great slaughter, pursuing them with the bayonet beyond the outposts. The French are said to have then retired to Cholula, seven miles from Puebla, where they were fortifying themselves at last accounts.

There was an extraordinary demand yesterday for the Government 6 per cents. of 1882 by conversion of United States Currency at par. The subscriptions were nearly three and a half millions. The deposits in the Treasury on 5 per cent. interest amounted to $2,197,000, which closed the maximum line of one hundred millions authorized by Act of Congress. The speculative activity in Stocks was marked by unusual excitement, rapidly advancing prices and enormous sales. Gold Coin attracted less attention, closing about 150¾. Exchange 166 per cent. The price of money, now that the Government is no longer able to receive deposits at 5 per cent., is even easier than last week, at 4@5 per cent to the Brokers.

Breadstuffs were plenty, heavy and generally cheaper yesterday. Moderate sales of Pork, Oils, Hay, Hops, Metals, Fish, Fruit and Whisky were reported. Lard, Beef, Pepper, Tallow and East India Rice were in active demand. Cotton was quiet. The freight engagements were restricted.

Another "Dreadful Pother."

The London *Times* is doing its best to get up another storm—seizing upon the circumstance that Mr. Adams had given a certain vessel a certificate that she was *bona fide* bound for Matamoras and not a Confederate port. It fulminates very vehemently over the idea that British ships can cross the seas only by virtue of an American protection. Doubtless the "Thunderer" knows what is best calculated to impose upon the senses of its devotees; but, as for ourselves, we must say that this is about the sorriest specimen of the sheet-iron article we have heard in that quarter this many a day. There are respectable shams; but this is not—it is simply ridiculous and contemptible.

Of course the London *Times* has been too long in the business not to know the utility of a bad name; and its first care is to style the certificate a *pass* or *permit*. This shabby misnomer is designed to produce the impression that Mr. Adams has assumed *authority* over British vessels. A certificate is simply a verification of a fact, and need not at all spring from any legal power whatever. Any man, if he chooses, can give any other man a certificate on application. It is simply evidence, carrying with it just the weight that the name attached to it may impart. But a pass, or license, or permit, necessarily presupposes some sort of legal power. The granting it is an official act, involving authority. We should feel, for instance, at perfect liberty to certify that the Editor of the London *Times* is an unscrupulous servitor of Jeff. Davis; but when we come to giving that editor a license or permit to serve or not serve Jeff. Davis, as the case might be, we could not do it, simply because we have no power in the premises. The distinction is an essential one; and it is obvious to any man of the slightest reflection.

It was perfectly proper for Mr. Adams, on being convinced that the British vessel about to sail was engaged in a trade not at all contravening the neutral obligations of England to his country, to give a general letter to any American naval commander who might overhaul her, that such was the fact. This procedure on his part was calculated to save trouble to all parties. It was the more expedient in this case, because the very character of the cargo—consisting as it did of arms and munitions designed for the Mexicans—taken in conjunction with its destination to a port which has already been largely associated with contraband *Confederate* trade, would, in the absence of such a testimony, make it almost conclusive that this ship was a fit subject for seizure. *How* Mr. Adams was satisfied that the arms were not for the Confederates, we do not know. We take it for granted it was on sufficient grounds. It is enough to know that, having peculiar advantages for settling this fact, and having so settled it in his own mind, he had a perfect right to make certificate to that effect. That certificate in itself had no *legal* force. Any American Captain, who should meet the vessel, might disregard it if he pleased, and take the vessel into an American port for judicial investigation. To be sure, he would not, if a sensible man, be likely to do it; he would accept Mr. Adams' testimony as conclusive, and save all parties from what would seem to be useless trouble. Yet if he decided otherwise, on reasonable grounds, no party would have any *legal* right to protest or complain. Earl Russell, in his correspondence on the *Peterhoff* case, acknowledged that "it is the right of the belligerent to capture all vessels *reasonably* suspected of endeavoring to break the blockade or of carrying contraband to the Confederates." This reasonable suspicion must all rest on more or less evidence: and the Captain might have evidence, unknown to Mr. Adams, which would quite neutralize the certificate. The certificate would estop nothing; it would simply go for what the American officer might consider it worth.

That Mr. Adams acted properly in giving the testimonial is very certain; but that the parties to whom he gave it, properly used it, is not so certain. What was intended to be simply a private letter to any American officer whom it might concern was not only laid before the English insurance companies, as going to show that they might insure without the risk of American seizure, but was made entirely public through the newspapers. We wait for further light to clear up this strange procedure. It is remarkable that the owners of the vessel should suffer the letter of Mr. Adams, which expressly stated that the arms on board of it were for the Mexicans—to become notorious, when the inevitable effect of that publicity would be to cause its seizure by some French vessel on the very day it should take to the high seas. It would seem that in fear of Scylla, they deliberately and purposely steered straight upon Charybdis. But with this subsequent folly Mr. Adams had nothing to do. It was enough for him to assure himself that the vessel did not design to trespass upon our belligerent rights; and to vouch for this so far as he was able, in order to relieve American officers of unnecessary doubt and trouble. In doing this, he did not go a hair's breadth beyond his proper province. The French Minister in London does not do his duty, if he is not equally attentive to French interests.

The *Times* avers that "English merchants cannot go as suppliants to foreign ministers for licenses to transact business." Certainly not; for foreign ministers have no such *licenses* to give. Mr. Adams could not, if he would, secure safe conduct to any vessel engaged in any business, contraband or otherwise. He can, when solicited, make a personal statement of what he knows, but that is all he can do. If English merchants do not care to apply for such a statement, it matters not. With it or without it every British vessel that is "reasonably suspected of endeavoring to break the blockade, or of carrying contraband to the Confederates," will be just as surely seized as overtaken. The American people will never consent to abate one jot or tittle of their belligerent rights in favor of any Power on earth; infinitely less in favor of a Power that, in years which have passed, so mercilessly exercised those rights against the United States. They intend to stand firmly on the law of nations, without the slightest regard to either the high airs of the London *Times*, or its low deceptions.

The Army of the Potomac.

If nobody knew in advance Gen. Hooker's plan of movement and operation against Lee's army, certainly no one can tell what they are going to be from the manœuvres he has thus far made. Those who predicted he would go down and over the Rappahannock, now see that he has done so; and those who foretold that he would go up and over, now find their sagacity vindicated. He has done both. His active army has been divided into two great forces—of what precise relative strength we are not told—which started on their divergent march on Monday. The right force, after a march of eighteen or twenty miles, reached Kelly's Ford, on the Rappahannock, above Falmouth, and by Wednesday morning the pontoons were laid, and our men crossed the river without loss. The left force after a brief march from their quarters, struck a point on the river a couple of miles below Falmouth, and by Wednesday morning the pontoons were there laid at two places, and two divisions crossed. At both crossings, the rebels made a slight resistance, and at the lower one a brisk skirmish took place. We publish letters this morning from both of the great sections of the army, the upper and the lower; and in these the details of the march and crossing will be found, and the condition of affairs up to Thursday. The report of heavy cannonading, of which we published a statement yesterday, evidently came from the fight below Falmouth on Wednesday morning, and indicated, as we suggested, not the opening of the general action, but the preliminary skirmishing. Gen. Hooker himself was present with the upper section of the army, and superintended its crossing, and subsequently, with his Staff, made a reconnoissance for some twenty miles.

What the next movements were, or are to be, we are uninformed, though the correspondents venture some speculations. Our correspondent with the upper section, thinks its destination is Culpepper on the one hand, and Ely's Ford, on the Rapidan, on the other. He evidently believes the point aimed at to be Gordonsville, and thinks that is the main movement. It is hard at present to tell which of the movements is the main one, but a close reading of our letters and of the few items of telegraphic news will enable any one to make what will appear to himself at least as a pretty shrewd conjecture.

Receipts from the Internal Revenue.—Dispatches from Washington have twice alluded, with emphatic surprise and disappointment, to a great falling off of receipts from internal revenue. Our own correspondent yesterday represented Commissioner Boutwell to be no little concerned to find that his estimates, "made from correct data, and justified by the statistics of the country," have proved "alarmingly delusive." And two causes are assigned for this falling off—first, "a very general neglect to comply with many of the requirements of the Revenue Act in regard to the use of stamps," and second, "the prodigious extent to which stamps once used are fraudulently detached from the instruments to which they were attached, and used again."

It occurs to us that this is an imputation upon the average honesty of the country that is altogether too sweeping. We do not think that the small forgery perpetrated upon the Government, in the way of restoring once obliterated stamps of small values, will make up a sum large enough to be styled "prodigious," or seriously to interfere with the footings of the annual budget of a Minister of Finance.

We apprehend that the explanation of Mr. Boutwell's disappointment is just this. He estimated his annual receipts from the sale of Government stamps upon the basis of the first few weeks' or months' returns, whereas it is notorious that thousands, and perhaps tens of thousands, of business men bought enough stamps the first month to last them through a large portion of the year. It was the rule rather than the exception that a large supply was laid in, both for convenience in their legitimate use, and because at the time they were first issued they were in active demand to make change for the fractional parts of a dollar—postage currency not being abundant enough to supply the demand.

So far as the reliable "statistics" of Commissioner Boutwell are concerned, it is well to remember that while the number of transactions upon which tax stamps are imposed may have been enormous before the Tax law was passed, and while their volume may have been established by incontrovertible statistics, so soon as the stamp tax was passed there was a natural, instant, and universal tendency on the part of the people to condense their transactions—to draw only one check where previously they would just as readily have drawn two—and so in every other branch of transactions subject to tax.

We know there has been no diminution of the aggregate business of the country. We do not think there is a "prodigious" amount of fraud in the use of revenue stamps. Let us start with a reasonable and right basis of income from this source, and the country will not disappoint the Government.

Putting the Right Men in the Right Places.

There is one thing for which the rebels are certainly entitled to credit, if for no other, and that is the rapidity with which they appreciated the difficulties of their position, and the energy with which they adapted their policy to their circumstances. This has been shown in no way so remarkably as in their choice of leaders, and in the measures they have employed for enforcing efficiency in their service. They had no sooner seceded than they placed the ablest man amongst them at the head of their affairs, and from that moment he has been permitted to deal with his subordinates precisely as he sees fit, without murmur, remonstrance, or even comment on the part of the Press or the public. Generals have been dismissed, removed, and changed from one department to another, torn from brilliant positions and consigned to obscure ones, raised from obscurity to places of prominence and responsibility, and the people and the army look on approvingly, or, at all events, silently. Beauregard fought and won the first battle of the war, and what with strutting, posing and rhodomontade, unquestionably answers the Southern ideal of a hero; and yet he was, soon after Bull Run, thrown into the background. He has been driven backward and forward, up and down, from East to West, from a picayune command to no command at all, and latterly he has been assigned to the important, but not first-class position of taking charge of the defences of Charleston. And yet hardly a syllable of complaint have we had either from him or his friends. There is nobody, who has a drop of the milk of human kindness in his composition, who must not have been afflicted at the sight of the various fortunes which have chequered the career of the unfortunate Bragg, and yet he bears it like a man, and the Confederate world seems not in the least moved by the spectacle.

As to the politicians, their fate has been still harder. Floyd has disappeared into "the illimitable perspective;" Wise and his "legion" hover somewhere on the outskirts of the Confederate army, but the cruel and obdurate Davis remorselessly refuses to give them the least chance of engaging the entire Yankee host—Wise, who at the time of the John Brown affair announced his ability to traverse the North in arms "with ten men," on his way to Canada. Worse than all, Roger A. Pryor, the most bloodthirsty Virginian in existence, was only allowed to remain in command of the position on the Blackwater as long as there was no chance of a collision, but as soon as this appeared likely, his unromantic chief superseded him. We hear nothing whatever of a Beauregard party or a Wise party or a Bragg party, nor does the air down South resound with predictions of the ruin of their cause because Stonewall Jackson has not the command-in-chief, or because Beauregard was removed from the Potomac without consulting the sidewalk strategists and windy politicians of Richmond.

There is, in short, in every act of the Richmond Government a bold assertion of the doctrine that no man has a right to any public office; but that any public office has a claim upon any man in the community. We began the war upon a directly opposite principle. We were so confident in our own strength, so full of contempt for the enemy, that we refused to give up one of our old vices or traditions, and entered into the contest loudly confirming the claims of all party chiefs to the highest offices in the State, military as well as civil. Our great aim at the outset was apparently not so much to organize the most effective machine for putting down the rebellion as to comply with the old custom of satisfying party claims on the Government patronage. The evils of this system at the outset of the war were incalculable. It is hardly an exaggeration to say that we have spent millions of treasure and torrents of blood in adhering to the fallacy and heresy that certain people have a right to fill certain places, whether they are fitted for them or not.

We are only expressing the opinion of every reflecting man in the community, when we say that, if this Republic is intended to last, this system of choosing those who are to take charge of its interests must cease, and cease now. We must go back to the practice of the early days, and put into vacant places the men who are fit to fill them, and not the men who have earned them by electioneering; and when they are in, leave them there as long as they behave themselves. In inventing the present practice, the Democratic party inflicted as great a curse on the nation as if it had introduced a foreign army of occupation. And it is a curse which makes itself doubly felt in time of war. It has been the blight of the army, though we have to thank its application to the army for the most glaring exposures that could possibly be made of its wickedness and absurdity. We are now about to raise another army, and if, after the experience we have had, either the President or the Governors of States deliver over the new regiments to the tender mercies of ambitious orators and wire pullers, while men of military experience and ability are left to pine in idleness and obscurity, they will be chargeable with something a good deal worse than folly.

Military Discipline.—Some of the men of the First regiment of New-York Volunteers refused to do duty a few days ago, on the ground that their term of service had expired. Their claim was wrong, however, in the matter of a fortnight or so, and it was so decided by the military authorities. The decision did not satisfy the mutineers, and the disaffection extended from a single company to the whole regiment. Suddenly the ringleaders were arrested, the men were stripped of their arms and regimental colors, and confined to their quarters strongly guarded; and Gen. Sickles issued an order in the case, which unites the stringency of military law with even-handed justice and true clemency. He promises consideration and redress to all complaints as soon as the men return to duty, but orders that they be put under instant surveillance and punishment for their ill conduct, and warns them that if on the next day at noon they be found mutinous, a certain number of them will be tried by Drumhead Court-martial, the sentence of which shall be immediately executed—all the remainder shall be drafted into other regiments—the officers will be mustered out, dismissed, or reduced to the ranks—"and the First regiment New-York Volunteers thus disbanded in disgrace, will cease to exist as a military organization in the service of the United States." Next day the men purged themselves by repentance, and evinced their desire to return to duty, which they were permitted to do, and their arms were restored.

It is a misfortune that a regiment which has earned an honorable name for fidelity and gallantry, as Gen. Sickles says, should tarnish its fame during the last few days of its term of service, and we are glad that the prompt action taken in the case proved so quickly effective. The regiment may have an opportunity to efface all remembrance of the deed before Thursday next, when its term of service really does expire.

The Investigation into the Prize Proceedings—A Suggestion or Two.

The investigation which the Secretary of the Treasury has ordered in connection with the prize proceedings in this District, is a matter of no small importance to New-York. There has been so much said about them, so many charges of malpractice, so many imputations of gross overcharging, if not of dishonesty, that it is due to the fair fame of our City that such an investigation should be had, and that it should be sweeping, thorough, honest and fearless. Let us know the facts in the matter, cut where they will. If there is any reason why the expense of prize proceedings should properly and rightfully be 15 per cent. here, as against 6 per cent. in Boston, let it be known. If there is no reason for it, except in dishonesty and plunder on the part of those to whom the interests of the public and of the captors have been committed, let that, too, be brought to light. It is an unpleasant and ungracious task to uncover dishonesties in high places, but to cover them up is to make ourselves parties to them. We understand that the present investigation is set on foot at the instance of a committee of the merchants of our City. We trust they will not be satisfied with merely having set it on foot, but that they will take an interest in it, watch it, and help it along.

We do not know how far this investigation may go; we have no knowledge as to what power those having it in charge may possess, whether they are limited to certain lines of investigation or not. But we take the liberty of making some suggestions as to certain matters which, if they have the authority, might properly be inquired into.

The first thing which occurs to us, because it is one to which we have frequently called attention, is the missing cargo of the *Hiawatha*, and the order that the Marshal should show cause why it was not forthcoming, which was returnable at an early part of the term that Judge Nelson held here last Fall, but which the District Attorney never called up all the while the Judge was here, and of which we hear nothing now that he has come to hold Court here again. This matter seems to us not unworthy of investigation. The causes which have led to so much delay must be weighty, or else the neglect has been great.

Again, we recollect to have noticed in the report of the Secretary of the Navy on these matters, that the fees in these cases seemed to bear an undue proportion to the total expenses. We recollect some instances in which the fees of the District-Attorney and counsel for the captors amounted to nearly three-fourths of the whole expense. Would it not be a pertinent subject of inquiry to learn what has been the total amount of fees taxed to these officers, and for what services, and how it has come that the District-Attorney's fees have been taxed at so large a sum, when by the law as it existed till changed at the heel of the last session, his total compensation was limited to $6,000 per annum? Whether he has received any more than that amount, and, if not, what has become of the fees; whether the Navy Department allows to the counsel for captors anything beyond the fees taxed in the causes; how these fees have been taxed—by consent or otherwise; whether there has ever been any opposition on the part of the District-Attorney or counsel for captors to any bill of costs proposed by the Marshal, the Prize Commissioners or each other; and if this is so, what the services are for which, as we understand, twenty dollars have been sometimes taxed as a fee for attending on taxation of costs, for which the fee of the taxing officer is only a dollar, and the proctor's fee in the days when proctors in admiralty could tax fees, was only fifty cents. There are several matters here which might engage the attention of the investigating officers with profit to the public.

Again, there are charges for disbursements against this prize property which, perhaps, might well be inquired into. Something might perhaps be learned by taking the various bills of this kind from the files of the Court, and examining the parties in whose favor they are made, to see if they received all the amounts named therein, and if not, who divided the spoils with them.

There are other intimations floating in the air, of improper sales, of unfair appointments, of unjust weights and unequal measures, of services charged and paid for which were never rendered, of charges for which no authority of law can be found, of excessive charges for storage and cooperage, and insurance, &c., &c. As we have said, we do not know whether it is competent for these investigating officers to inquire into all these matters, but sure we are that if it is not competent for them, it should be made so. The repute of our City requires it; the interests of the nation demand it. If we are unjustly charged, let us be cleared from the disgrace; if truly, let justice, swift and sure, fall upon those who have brought the disgrace upon us.

Running the Batteries.—A dispatch yesterday from Cairo set forth that it was doubtful whether any of the half-dozen transports which attempted to run the batteries of Vicksburgh, on the night of the 23d ult., succeeded in passing; and it was added that four of the six were known to have been sunk. This report, if true, which appears doubtful, loses any importance it might seem to have when we remember that these transports were but a sort of scow or broken-down old steamboat, had no troops aboard, and were going down all but empty, to be used by the army below, which has already moved by an interior route from Milliken's Bend to New-Carthage, La. Each transport had a small volunteer crew on board, barely sufficient to man it.

Jefferson Davis and Mississippi Repudiation.

To the Editor of the New-York Times:

The letter of Mr. John Slidell to a friend in England, in which he expresses the belief that Reuben, and not Jefferson Davis, was the Mississippi repudiator, is highly characteristic of that crafty and unscrupulous rebel. Of course, Mr. Slidell knew very well what had been Mr. Davis' sentiments and course on this subject; but there was an object to be gained by pretending not to know, just as there was an object to be gained in the Presidential election of 1844, by the Plaquemines frauds. The truth is, Jefferson Davis commenced his career as a politician and a repudiator at one and the same time. It was at Vicksburgh, Nov. 6, 1843, in a public discussion with one of the most gifted and remarkable men of the day, S. S. Prentiss, who was a relentless enemy of the Mississippi repudiators, and the acknowledged leader of the bond-paying party in that State. On the occasion referred to, the discussion turned not merely upon the constitutionality of the Union Bank bonds, but also upon the favorite political dogma by which many of the repudiators justified their conduct. The point is thus referred to in a letter written by a distinguished lawyer, who was present:

> "Mr. Prentiss was ridiculing and denouncing the notion that *one generation cannot bind another*, and called on any one to explain what was meant by the proposition. Major Jefferson Davis, who had never before appeared in public, undertook to state what the doctrine on that point was. M. P.'s response was the most courteously severe and magnificently eloquent thing I ever heard, even from him."

An account of the discussion appeared next day in the Vicksburgh *Sentinel*,] from which the following is an extract:

> "Mr. Prentiss certainly made the best and most logical argument we have ever either heard or read, as emanating from the bond-payers, and stating that our plain planter successfully maintained his position against S. S. Prentiss is saying that Major Davis is no ordinary man."

These extracts show that Jefferson (not *Reuben*) Davis entered public life as a full-blown repudiator; nor is there the slightest evidence that he has ever repented of it. The letter addressed by him at a later period to his present admirer and advocate, the London *Times*, in which he vindicated repudiation and sneered at the "crocodile tears" of the foreign bondholders, was in perfect keeping with his course before and since. In 1853, as is well known, the legal and constitutional validity of the Union Bank bonds was finally decided by the highest tribunals of Mississippi; first by the Superior Court of Chancery, in February, and then in July by the unanimous opinion and decision of the High Court of Errors and Appeals. Jefferson Davis was at this time the idol of the disunion and of the anti-bond party in Mississippi. He had been their candidate for Governor in 1850, and was barely defeated by Gen Foote. He was now at the head of the War Department in the Cabinet of Mr. Pierce, and a prospective candidate for the Presidency. So great was his political and personal influence that he could, undoubtedly, have easily persuaded the leaders of his party at home to accept the decision of the Courts in the case of the Union Bank bonds (as they had always professed their willingness to do) and make no further opposition to their payment. Did he do anything of the sort? Not at all. In the gubernatorial election of 1853, which occurred in November, to the profound disappointment of the country, the old repudiation policy was still adhered to, the recent opinion of the Supreme Court denounced, one of the Judges dropped, and the candidates of the anti-bond party triumphantly chosen.

Mississippi repudiation was the most profligate and infamous school of politics, as it was the most gigantic swindle which up to that time our country had seen; and in this unprincipled school Jefferson Davis was thoroughly trained to become the chosen leader and head-master of that still more infamous and swindling concern—the slaveholding rebellion.

A brief editorial from the Vicksburgh *Sentinel*, of Nov. 7, 1843, the same paper which eulogizes so warmly the maiden speech of "Major Davis," will illustrate the genuine spirit of Mississippi repudiation, and also serve as a pleasant premonition to the holders of Confederate bonds:

> "THE WORK GOES BRAVELY ON.
>
> "Far as we can see, the gallant 'subterraneans' are doing their duty manfully and well. The battle will be well fought, and if the enemy gains the victory, it will be well earned and hard won.
>
> Stand up to the rack to-day, boys! Let those who did not vote yesterday come forward and do so to-day; and let those who have voted, and who love the cause, aid in bringing up our corps of reserve to the charge. On, anti-bondsmen, on! Your birthright and those of your children, are at stake; if you are men—if you cherish the great fundamental principle which your fathers proclaimed, July 4, '76—if you wish to give the death-blow to funding and consequent taxation throughout the world—if you have humanity enough not to increase the pangs of starvation under which three-fourths of your fellow-beings in bond and king-ridden Europe are writhing—go, we say, to the polls to-day, and record your votes against the iniquitous system. The present crisis is no ordinary one; the issue is not confined to Mississippi—no, it is a contest in which is marshaled, on one side, a privileged aristocracy, moneyed influence, bonds and endless taxation; and, on the other, Freedom, Justice, and Humanity!"

PRO-PATRIA.

Amusements.

Italian Opera.—Max Maretzek's Summer season will commence on Monday next, with Verdi's new opera, "Aroldo," with a superb cast, new scenery, dresses and appointments. The cast includes the favorite artists Madame Ortolani, Mazzoleni, Bellini, and others. From present appearances, this season promises to be as prosperous as the one just concluded, the greatest we have ever had at the Academy. Other novelties will be produced in quick succession.

Last Day of the Dog-Show.—Every dog has his day, and this is the one appointed by Barnum as the wind-up for his famous show of fancy dogs. Fanciers and amateurs must improve this opportunity, or lose the last.

Gottschalk's Matinee.—To-day, at 2 P. M., Mr. Gottschalk will give a grand matinée at the Brooklyn Academy of Music, assisted by favorite and competent artists.

☞ Miss Anna E. Dickinson, of Philadelphia, whose recent oration on the War evoked the applause of a crowded audience, speaks to-night at Cooper Institute on "The Three Methods of Peace."

[Communicated.]

To the Editor of the New-York Times:

A short time since our attention was arrested by an announcement in the public journals of a new discovery in *electrical science*, which, if true, must transcend in importance all other discoveries, *the lightning-rod and telegraph not excepted.*

At the present time thoughtful minds everywhere are looking for the revelation of new and important discoveries in science, and when an individual presents his theory, claiming to have discovered new light, and to have removed the vail of obscurity from a subject of the highest importance, upon which much has been written and more conjectured, it is proper that his claims should be presented, and carefully examined and tested.

WE REFER TO THE DISCOVERIES

in *Electricity*, as a therapeutic agent, by Dr. CHAMBERLIN, at No. 50 Bond-street, New-York, a distinguished *electrical physician*. The announcement of Dr. C., united with an invitation to all who desire to investigate the subject, induced us to call at his rooms, and ascertain, if possible, the truth of his claims. In conversing with the Doctor, we learned that he had devoted many years to the study of, and experiments in electrical science, particularly that branch of it relating to the electrical forces of action in the human body, the cause of disease, rationale of cure, &c., and from the principles discovered, claimed to have perfected a system of treatment for the removal of all maladies at all curable, by means of the various combinations of electricity.

THE DOCTOR'S THEORY IS,

That the human system is but a galvanic arrangement, with its acids and alkalies, constituting the positive and negative forces, and that every mental and physical manifestation, either voluntary or involuntary, is the result of this antagonism; that digestion, circulation, secretion and excretion, are wholly attributable to the law of electrical influences; that the nerves are the conductors of *Electricity*, and that there is a polar action established through the nervous system, which connects with every part of the body, establishing and preserving a proper balance of the electric element, which constitutes health, and a disturbance of which causes disease; that there are strictly but two conditions of disease, the one positive, the other negative; and as *Electricity* possesses these two inherent principles, it will, if applied according to the electric polarities and requirements of the system, arrest, or in other words neutralize the disease by the restoration of proper polar action.

THE DOCTOR FURTHER ASSERTS

That all drugs taken into the system are strictly upon electrical principles; that from decomposition the latent electricity is set free, and that, through the electrical polarities of the nervous system, all changes are procured either for good or for evil; that in the incipient stage of disease it may tend to equalize the forces, and restore harmony; but after the case has become refractory, paralyzing the nervous communications, and changing the constituents of the fluids, and arresting the digestive action of the stomach and its power of approbation, no internal process of medication ever has, or ever can, succeed in removing the cause of the disease, its only tendency being to multiply and complicate the symptoms.

ON THE CONTRARY,

Electricity being the vital element upon which life depends, can be directed to any part of the body, and even after the vital functions seem paralyzed, possesses the power of arousing the dormant energies, equalizing the circulation, and restoring the system to a self-sustaining condition.

THE UNDERSIGNED,

Feeling deeply interested in the subject of electrical science, and especially that branch of it which relates to the cure of disease, as practiced by Dr. CHAMBERLIN, take occasion to affirm, both from our own experience and observation, that we believe it simple and effective, and deserving the attention of the afflicted. We have witnessed the complete restoration to health of many persons who have been long ill, who have enjoyed the benefits of the advice and skill of some of the most eminent medical practitioners of this and other countries, without relief or even hope of relief. In some instances the disease of years' standing has yielded almost at the first touch of the electric element, while in others it has required a more protracted treatment, and, without exception, the most satisfactory results have followed.

ONE VERY IMPORTANT FEATURE

of the treatment is that no time is lost in experimenting with disease. By means of an electrical test an accurate diagnosis is given at once, determining the locality and character of the disease, and indicating the treatment to be pursued.

From what has been suggested, it will be apparent that no mere charlatan in his profession, no student of a day, could be relied upon to apply this mighty agent to the human organism.

WE DESIRE, THEREFORE,

thus publicly to make it known that Dr. CHAMBERLIN has demonstrated to us, in the most satisfactory manner, that his claims are based upon immutable laws, that his treatment is founded upon scientific principles, and we most cordially recommend all who are suffering from physical ills to consult Dr. CHAMBERLIN, under whose supervision they will learn for themselves that what we have affirmed in reference to his system is true and entitled to their grateful recognition.

Thirty Years' Experience of an Old Nurse.—Mrs. WINSLOW'S SOOTHING SYRUP is the prescription of one of the best female physicians and nurses in the United States, and has been used for thirty years with never-failing safety and success by millions of mothers and children, from the feeble infant of one week old to the adult. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health and comfort to mother and child. Twenty-five cents a bottle.

House-cleaning Made Easy.—The anniversary of this much-dreaded duty is at hand. All who would lessen the attending toil should send to the grocer for a supply of PYLE'S O. K. SOAP. For cleaning paint, windows, and general washing purposes, it has no equal. By its use, one person can accomplish a third more work per day.

Try it, and be satisfied. Sold by Grocers generally.
Manufactured by JAMES PYLE,
No. 350 Washington-st., corner Franklin-st.,
New-York.

Costiveness.—No person can feel well while a costive habit of body prevails, and no one can expect to enjoy health permanently who permits it, for it is contrary to the economy of the system, and gives rise to a goodly proportion of the ills which afflict the human race. To neglect it, therefore, is to insure ill health of greater or less duration; yet, in attempting its removal, discrimination with regard to the remedies to be used is requisite. Violent purgatives temporarily remove obstructions, weaken the bowels, and reduce the strength of the patient, and are followed usually by greater constipation, rendering another and another dose necessary, until even the strongest purgatives lose their effect, and the patient's condition becomes deplorable. What is required is a gentle purgative—one having some action on the liver, and one that can be taken daily without impairing the strength of the patient, or injury to the system, until the tendency to constipation is removed. But few remedies have been found to meet these requirements, and of these few probably none have been so successful, as demonstrated by many years' use, as Dr. D. JAYNE'S SANATIVE PILLS. They are usually taken every night at bedtime, causing, in proper doses, no inconvenience during the night, and producing no sickness or unpleasant effect during the day, so that persons may follow their usual avocations, whether of business or pleasure, in the same manner as if they had not taken the Pills. Their good effect will begin to be obvious after a week or two's use, particularly in greater clearness of mind, and an increased energy and disposition to work and to enjoy life, and their continued use in the restoration of the health to the patient. Sold by KITCHEN, TYLER & CO., and at retail by Druggists generally.

USEFUL AND VALUABLE DISCOVERY!
HILTON'S INSOLUBLE CEMENT

Is of more general practical utility than any invention now before the public. It has been thoroughly tested during the last two years by practical men, and pronounced by all to be
Superior to any Adhesive Preparation known.

HILTON'S INSOLUBLE CEMENT

Is a new thing, and the result of years of study; the combination is on
SCIENTIFIC PRINCIPLES,
And under no circumstances or change of temperature will it become corrupt or emit any offensive smell.

BOOT AND SHOE

Manufacturers, using Machines, will find it the best article known, for Cementing the Channels, as it works without delay, is not affected by any change of temperature.

JEWELERS

Will find it sufficiently adhesive for their use, as has been proved.

IT IS ESPECIALLY ADAPTED TO LEATHER,
And we claim as an especial merit, that it sticks patches and linings to boots and shoes sufficiently strong without stitching.

IT IS THE ONLY LIQUID CEMENT
Extant that is a sure thing for mending
FURNITURE, CROCKERY, TOYS, BONE, IVORY,
And articles of household use.

REMEMBER HILTON'S INSOLUBLE CEMENT
is in a liquid form, and as easily applied as paste.
HILTON'S INSOLUBLE CEMENT
is insoluble in water or oil.
HILTON'S INSOLUBLE CEMENT
adheres oily substances.

Supplied in Family or Manufacturers' Packages from 2 ounces to 100 pounds.

DEAFNESS

NOISES IN THE HEAD,
Diseases of the Eye, Ear & Throat,
CATARRH CURED
BY
Dr. VON EISENBERG.

From the Journal of Commerce.

EXCITING NEWS FOR THE DEAF.—An instrument called Dr. Von Eisenberg's Air Passage Expander and Regulator, a gigantic machine, weighing nearly five hundred pounds, about five feet in height, a most wonderful apparatus for restoring sight and hearing, has just arrived for Dr. Von Eisenberg, the celebrated Oculist and Aurist, and will be on exhibition at the Doctor's office, No. 816 Broadway, for a few days previous to its use. The instrument is constructed decidedly on the most scientific principles. To give a detailed description would require a greater space than we can now spare. Our Oculist and Aurist seems to do everything in the line of his profession on a gigantic scale. The new instrument for restoring hearing to the deaf and sight to the blind is so constructed that it cannot fail to open the most obstructed air passages. His new consulting rooms, No. 816 Broadway, are correspondingly magnificent, and his practice as Aurist and Oculist large and eminently successful.

From the New-York Evening Express, Feb. 14, 1863.

SENSATION AMONG THE DEAF.—The unrivaled skill of Dr. Von Eisenberg, the far-famed Oculist and Aurist, of No. 816 Broadway, has made quite a sensation among the Deaf and Blind by his wonderful cures, which attract the Deaf, Blind and those suffering from Chronic Catarrh, from all parts of the Union to his office. The number of his certificates of really wonderful cures swells daily. For the benefit of sufferers, we submit the following, which requires no comment:

NEW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.

JOHN TAYLOR,
No. 13 Livingston-st., Brooklyn.

NEW-YORK, July 19, 1862.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing*. Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. It is with grateful thanks that I give this testimony to his skill.

CARROLL J. POST, No. 28 South-st.

No. 188 MERCER-ST., NEW-YORK.

J. B. VON EISENBERG, M. D.—*Dear Doctor:* I have been afflicted with total deafness, and was induced to pay you a visit. No one can imagine my delight when, after one operation, my hearing was suddenly, and without pain, restored to me, for which I feel very grateful. After being totally deaf—almost shut out from the pleasure of using so necessary a sense—to have it returned, and to hear so distinctly, reflects great credit on you for the immense amount of skill you possess. I beg to thank you for what I can so truly appreciate. I am, Sir, your obedient servant,

EDWARD TEMPLE HARRISON.

NEW-YORK, Nov. 6, 1862.

DR. VON EISENBERG—*Dear Sir:* Before taking leave of you, after your most successful operation on my ear, allow me to express my sincere thanks that, by your scientific surgical performance, I am enabled to *hear distinctly*, and enjoy a pleasure of which I have long been deprived—over a year. May you be rewarded by being enabled to perform many similar, to benefit other sufferers, and to your own emolument.

Allow me to present my kindest regards, and assure you of my grateful remembrance. Respectfully,

A. McDONALD REYNOLDS,
Captain Marines, United States.

CHRONIC CATARRH CURED.
READ

NEW-YORK, March 20, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of a cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

CERTIFICATES.

This is to certify that, about eighteen months ago, I commenced using STERLING'S AMBROSIA. My hair was short, thin, and rapidly falling out. I had tried many Hair Tonics, Invigorators, &c., without receiving any benefit. Soon after using the Ambrosia, my hair ceased falling out, and commenced growing so rapidly as to astonish me. Now, my hair is thick, soft and glossy, and is five feet four inches in length—when let down, reaching to the floor. This wonderful result I attribute solely to the use of STERLING'S AMBROSIA, as since I commenced using it I have applied nothing else to my hair.

NORWICH, March 31, 1860.

Messrs. S. W. Fowle & Co., Boston:

GENTLEMEN: Three years ago, after much suffering from the effects of typhoid pneumonia, and having received very partial benefit from many other prescriptions, Dr. Frederick Brown, of your city, presented me with a quantity of WISTAR'S BALSAM OF WILD CHERRY, which I used with great benefit, and continue to do now when occasion requires. I deem it an invaluable medicine, in so far as it has suited, and does suit, the peculiar requirements presented by my own case, and readily agree to the wish of your agent in thus stating my opinion after experience. NEW PUBLICATIONS.

THE NEW BOOK BY AUTHOR OF
"AMONG THE PINES."
A tremendous sale to start with.
9,000 copies already sold
OF
MY SOUTHERN FRIENDS.

By EDMUND KIRKE, author of "Among the Pines."

One handsome 12mo., elegantly bound in cloth. Price $1; and paper covers 75 cents.

The success that has attended the publication of "Among the Pines," has been of the most extraordinary character. With Hugo's "Les Miserables," it stands as one of the great successes of the publishing season. Extravagantly praised by every one—both as the most truthful picture of Southern life ever written, as well as a work of great dramatic and powerful interest, it ranks confessedly as one of the marvels of American authorship, and it is not surprising that its sale has nearly reached the enormous number of 40,000 copies within so short a period of publication.

THE NEW BOOK,
MY SOUTHERN FRIENDS,
By the same Author,

While it possesses all the strength and truthfulness of its predecessor, has woven through it a narrative of intense dramatic interest—a charm that will insure for it a popularity exceeding even that of "Among the Pines."

Mr. CARLETON publishes at the same time a new, larger, and handsomer edition of "Pines," uniform with "My Southern Friends," and at the same price.

J. J. AUDUBON'S

CELEBRATED WORK ON THE BIRDS OF AMERICA, illustrated by one splendid folio volume, 27x40 inches, containing 140 magnificent plates, representing 338 figures of birds, ALL OF THE NATURAL SIZE, in action, together with the plants and trees most frequented by them. 5 vols. 8vo text, and fol. vol. of plates, half Russia, extra, $175; full Russia, superb, $200.

This magnificent volume was issued under the superintendence of his son, the late John W. Audubon, and every plate colored from the original drawings of J. J. Audubon, still in possession of his family.

In estimating the cost of this volume, the mere expense of manufacturing has been taken into consideration, without reference to the original cost of the plates, which was very great, and a small profit only has been charged on the expense thus estimated. The edition is a small one, and the work in this form will not be reproduced.

TWO NEW MUSIC BOOKS.
I.

ROOT'S SCHOOL FOR THE MELODEON, HARMONIUM AND CABINET ORGAN, consisting of progressive lessons, studies and scales, songs, duets, trios and quartettes; voluntaries, interludes and recreative pieces, for the parlor and choir, carefully prepared with reference to the advancement of learners, both in technical ability and taste as well as the true development of the powers and beauties of these instruments. By GEORGE F. ROOT.

This work is not a compilation from piano-forte instructors, but its arrangements are all carefully adapted to the sustained tones of the instruments for which it is designed. Beginning with the simplest lessons possible, one thing is introduced at a time, the course of instruction being carefully progressive throughout. It varies very materially from all previous instructors for these instruments, and it is hoped will be found to supply a want long felt by learners and teachers. It will make a volume of 144 quarto pages. Price $2.

AUCTION SALES.

EDWARD SINTZENICH, Auctioneer.

IMPORTANT SALE OF ORIGINAL PAINTINGS,
BY
E. LEUTZE, Esq.,
the distinguished Historical Painter.

By D. W. IVES & CO., in the front gallery at the Derby Fine Arts Institute, No. 625 Broadway, at 7½ o'clock, on THURSDAY EVENING, May 7.

We have the honor to announce the sale as above, of the select and most recent works of Mr. Leutze, all of which are of great historical interest and importance. It is sufficient now to say, that being the latest works of this eminent artist, the public may be assured that they are also his best. This sale forms an opportunity for purchase which has never and may not again occur, owing to the increasing number of orders, governmental and private, now accumulating upon Mr. Leutze's hands.

Among the subjects will be found the original study of the celebrated picture "Westward the Star of Empire Takes its Way," "Lafayette in Prison visited by his Family," "Unexpected Friends," a very remarkable picture, "Spray and Bubble" a wonderful creation of the artist's genius, "Deserted Hall," "Tired of Waiting," "Entertaining the Messenger," "German Baron," "Gentleman of the Time of Charles Second," and many others. In addition to the above will be sold about thirty-five examples, of the highest order and entirely original, by the following

EMINENT AMERICAN ARTISTS:

Kensett, Gignoux, Gifford,
Hart, Louis Lang, Cropsey,
Mignot, Champney, Chapman,
Casilear, Eastman Johnson, Prof. Weir,
W. Page, J. Kyle, Haeffler,
Blauvelt, Loop, Jones,
L. Terry, G. Miller, Mount,
Hinkley, F. W. Edmunds, Glasse.

As items of special interest it may be mentioned that a most interesting

ORIGINAL PAINTING BY HENRY INMAN,
representing "Washington as a Peace Maker," and a very beautiful
LANDSCAPE BY THOMAS COLE,
are included in the catalogue. The whole collection will be on exhibition on and from Monday, May 4,
DAY AND EVENING,
until sale, and catalogues will be ready for delivery on Saturday.

CAUTION TO LADIES.

Madame RESTELL, Female Physician, No. 162 Chambers-street, deems it her duty to caution ladies against impostors, who appropriate her advertisements, word for word, merely substituting some ignorant and wholly irresponsible person as "Madame."

These persons have spurious "Female Monthly Pills" and other poisonous compounds to deprive the unwary or the easily duped, as well of their means as of their health.

That ladies may avoid these impositions, Madame Restell feels called upon to give this caution.

PRIVATE DISEASES CURED IN THE shortest possible time, by DR. WARD & CO., No. 12 Laight-st., near Canal, without the use of Mercury, loss of time or change of diet. Dr. WARD, from the hospitals of London, Paris and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and expense than any one can or will, and those who have been robbed of their money and health, call; it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much-neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks. Permanently and speedily cured by a new treatment. Persons at a distance, failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to DR. WARD, No. 12 Laight-st., the only place. Call, send or write.

SURE CURE—BY DR. POWERS, SUCCESSfully consulted with Dr. WARD, No. 12 Laight-st. Conducted on the plan of the Hospital des Veneriens, Paris, where those afflicted with any form of private disease can receive prompt treatment, without risk or exposure, viz.: Syphilis, gonorrhœa, gleet, strictures, ulcers, tumors, cancers; secondary and constitutional syphilis, diseases of the kidneys, &c., &c. Thirty years of extensive practice, exclusively devoted to the treatment of those complaints enable us to effect cures in cases where others of less experience have failed. Dr. Powers' Essence of Life restores the vigor of youth in four weeks. This marvelous agent restores manhood to the most shattered constitutions—physical disqualifications, impediments to marriage, thereby speedily cured. The men to consult, Drs. Ward and Powers, the champions and kings of venereal diseases, possessing the most certain, speedy and only effectual remedies in the world, guarantee a perfect cure, or no charge, in from one to three days. Established in 1860. N. B.—Those who have used their Preventives are never without. Send for a circular. To Ladies.—Dr. Powers' Periodical Drops are a safe and certain remedy for monthly irregularities. The above remedies sent by mail. The afflicted should read their circular. Postage free, on receipt of a stamp. Cures warranted.

THE VIGOR OF YOUTH IS RESTORED in three days by Dr. POWERS' ESSENCE OF LIFE. This wonderful agent restores manhood to the most shattered constitution, radically curing Seminal Weakness, Sexual Debility, and impediments to marriage generally; Nervousness, Mental and Physical Incapacity, resulting from self-abuse, &c. The time required to cure the most inveterate case is one week. Failure is impossible. This life-restoring remedy should be taken by all about to marry, as its effects are permanent. Young man, are you subject to that soul and body destroying disease, secret habits? Dr. POWERS' Invigorating Essence is a never-failing cure. Sold by WALTER POWERS, M. D., No. 12 Laight-st., New-York.

IMPORTANT TO THE MARRIED AND THOSE ABOUT TO BE MARRIED.—Dr. A. M. MAURICEAU, Professor of Diseases of Women, has just published the 160th edition of the valuable book, entitled "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION," strictly intended for those whose health or circumstances forbid a too rapid increase of family. Price $1. Sold at his office, No. 129 Liberty-st., New-York; or can be sent by mail, free of postage to any part of the United States and Canada, by inclosing $1, and addressing Box No. 1,224 New-York City. For sale by H. RICHARDSON, at No. 1 Vesey-st., (Astor House,) and No. 18 Ann-st.; FEDERHEN & CO., 13 Court-st., Boston.

A PHYSIOLOGICAL VIEW OF MARRIAGE—Containing nearly 300 pages and 150 fine plates and engravings of the anatomy of the sexual organs, in a state of health and disease, with a treatise on self-abuse, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address on receipt of 25 cents, in specie or postage-stamps. Address Dr. LA CROIX, No. 31 Maiden-lane, Albany, N. Y.

MARRIAGE!—I DARE NOT THINK OF IT, and I bitterly regret it. How often these remarks are made by men to themselves, and why? Read the MARRIAGE GUIDE. By Dr. F. HOLLICK, the author and lecturer. The only reliable popular book on the subject; 500 pages, well bound, with wood cuts and colored plates; 200th edition. Price $1, for which it will be sent free (by post) to any place. Send the money and address to

T. W. STRONG, Publisher,
No. 98 Nassau-st., New-York City.

DR. WARD'S MAGICAL INVIGORATORS, IN the form of Pills, will, in fifteen minutes after being taken, make the recipient as vigorous as if nature had never been retarded or debilitated. To the married or single, in every physical exigency, this unrivaled medicine is earnestly recommended as a complete restorative of the nervous system where manhood has been impaired. Procured of Dr. WARD, No. 12 Laight-st., near Canal. Call or send for circulars.

DR. POWERS' PERIODICAL DROPS are designed for both married and single ladies, and are the very best thing known for the purpose, as they will bring on the monthly sickness in cases of obstruction from any cause, and after all other remedies of the kind have been tried in vain. Expressly for obstinate cases; warranted as represented in every respect, or the price will be refunded. Beware of imitations! Purchase directly of Dr. POWERS, No. 12 Laight-st., New-York.

DR. HUNTER'S RED DROP RESTORES the vigor of youth in four days. Restores manhood to the most shattered system. No. 3 Division-st., New-York, the only place. Beware of bogus Dr. Hunters. The City is full of knaves, up to every trick to rob him of his great reputation as a skillful and reliable physician. He has no other office but No. 3 Division-st. Established in 1834. Eight separate rooms and a private entrance.

SOMETHING FOR EVERY LADY.—DR. WARD'S Great Female Benefactor or Golden Regulating Pills. Infallible in correcting, regulating and removing all obstructions, from whatever cause, and they will never disappoint the anxious patient. Office, No. 12 Laight-st., where Dr. WARD can be consulted, confidentially, day and evening.

DR. JOHNSON, NO. 14 DUANE-ST., MAY be consulted with confidence on private diseases. Thirty years in one specialty enables him to guarantee speedy and permanent cures. N. B.—These who may have been misled by quack advertisements, nostrums, &c., can call on Dr. J. with the certainty of receiving honorable treatment.

PRIVATE CONSULTATION.—DR. HUNTER has, for thirty years, confined his attention to diseases of a certain class, in which he has treated no less than fifty thousand cases, without an instance of failure. His great remedy, HUNTER'S RED DROP, cures certain diseases, when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury, but possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb, unless his remedy is used. That is what he claims for it, and what no other will accomplish. Its value in this respect has become so well known, that scientific men in every department of medical knowledge begin to appreciate it, for hardly a week passes that he is not consulted by druggists, chemists and physicians, in regard to some pitiful patient who has exhausted the whole field of the faculty, and still the disease will appear. Its popularity is so great, that there is not a quack doctor in the City that has not attacked it; and when they find their lies are not so easily swallowed, they then pretend that they can make it. It is $1 a vial, and cannot be obtained genuine anywhere but at the old office. No. 3 Division-st. Book for 15 three-cent stamps, 300 pages, 100 colored illustrations. The best work out.

PROPOSALS.

ARMY SUPPLIES.

OFFICE OF ASSISTANT-COMMISSARY-GENERAL OF SUBSISTENCE, No. 4 State-st., New-York, April 28, 1863.

Sealed proposals will be received by the undersigned, at this office, until 4 o'clock P. M. on TUESDAY, the 12th of May, 1863, for furnishing DESICCATED AND COMPRESSED MIXED VEGETABLES, for issue to the United States army for twelve months from the first of November next, at the rate of *one hundred and thirty-five thousand pounds per month.*

The ingredients of the mixed vegetables furnished under the contracts of the current year are as follows, viz.: To each one hundred pounds of the mixed vegetables, twenty pounds of potatoes, twenty-two pounds of white turnips, twenty-two pounds of carrots, ten pounds of cabbage, ten pounds of onions, five pounds of string beans, five pounds of tomatoes, one pound of celery or parsley, and five pounds of rice. As the mixture can undoubtedly be improved by diminishing the quantity of some of the coarser vegetables and increasing some of the others, as well as by introducing some vegetables not heretofore used, proposers are invited to send in proposals with accompanying samples, not only of the mixture as above given, but also of other mixtures, varying therefrom according to the experience and judgment of the proposer, with a view of effecting an improvement in this article of military supply. Proposers are required to give the exact proportions of the different ingredients of their several samples, with price per pound of each, packed as required. When it is practicable, each of the vegetables in a separate state, and after desiccation, will be submitted for inspection. Only those parts of each vegetable commonly used as food will be accepted for the mixture.

The mixed vegetables are to be very compactly compressed into cakes of seven pounds each, ten of these cakes being packed in a tin or zinc box made air-tight, with two of these boxes packed in a wooden box made of suitable seasoned stuff, not less than five-eighths of an inch thick, with sunken ends one inch thick, strengthened with outside lining pieces. Boxes to be strapped with hickory at the ends.

Proposals must, so far as practicable, be accompanied with at least one box as above described, with contents of the proposer's own manufacture of each of the mixtures he may offer to furnish.

The location of the manufacturing establishment must be stated.

There being a choice among the different varieties of vegetables, proposers will state with precision the *especial varieties* they use, or propose to use, in their mixtures.

Each bid, to have consideration, must contain the written guarantee of two responsible names, as follows:

"We, the undersigned, hereby agree that should all or any part of the above bid be accepted, we will give our bond in the sum of ten thousand dollars that the contract shall be duly fulfilled."

Proposals must be indorsed "Proposals for Dessicated and Compressed Mixed Vegetables."

Colonel and A. C. G. S.

PROPOSALS FOR HORSES.

CHIEF QUARTERMASTER'S OFFICE, DEPOT OF WASHINGTON, corner of 18th and G sts., WASHINGTON, D. C., April 28, 1863.

SEALED PROPOSALS will be received at this office until MONDAY, the 4th day of May, at 12 o'clock M., for furnishing the Government with (2,000) two thousand Horses, of the following description, viz.:

CAVALRY.

For Cavalry, (1,500) one thousand five hundred Horses, from (15) fifteen to (16) sixteen hands high, between five and eight years of age; of dark colors; well broken to the saddle; compactly built, and free from all defects.

ARTILLERY.

For Artillery, (500) five hundred Horses, from (15½) fifteen and one-half to (16) sixteen hands high, between five and eight years of age; of dark colors; free from all defects; well broken to harness; compactly built, and to eigh no less than 1,100 pounds.

PROPOSALS.

The full name and post-office address of the bidder must appear in the proposal.

If the bid is made in the name of a firm, the names of all the parties must appear, or the bid will be considered as the individual proposal of the party signing it.

Proposals from disloyal parties will not be considered, and an oath of allegiance will be required from successful bidders before signing contracts.

Proposals must specify clearly whether the bid is for Cavalry or Artillery Horses, and *in no case* must both be bid for on the same paper.

If any bidder wishes to propose for both classes, he must forward two distinct proposals—one for each class, *complete in itself*—and having no reference to any other proposal by the same party.

Proposals must be addressed to Col. D. H. RUCKER, Quartermaster United States Army, Washington, D. C., and should be plainly marked "Proposals for Horses."

Bonds equal in amount to half the sum to be received on the contract signed by the contractor and two responsible securities will be required of successful bidders.

Bidders must be present in person when the bids are opened.

Blanks for bonds can be procured upon application being made at this office, either personally, by letter, or by telegraph.

INSPECTION, DELIVERY, &c.

All horses contracted for under this advertisement will be subject to a rigid inspection, and those not conforming to the specifications will be rejected.

No Mares will be received.

The Horses must be delivered in this City within twenty days from the date of the contract.

Payment to be made upon the completion of the contract, or so soon thereafter as the Chief Quartermaster shall be in funds.

The CAVALRY Horses will be awarded in lots of (200) two hundred each, and the ARTILLERY Horses in lots of (250) two hundred and fifty each, unless the Chief Quartermaster should deem it for the interest of the Government to vary the number.

The Chief Quartermaster reserves to himself the right to reject any or all bids that he may deem too high.

D. H. RUCKER,
Colonel and Chief Quartermaster.

PROPOSALS FOR HAY, STRAW AND GRAIN.

ASSISTANT QUARTERMASTER'S OFFICE, FORAGE, DEPARTMENT, corner of G and 22d-sts., WASHINGTON, D. C., April 16, 1863.

Written proposals are invited for furnishing HAY, STRAW, OATS and CORN for the use of this depot, to be delivered at the railroad depot, or at any of the Government wharves in this city.

The proposals to be addressed to the undersigned, and they should state the quantity of each article offered, also the price and the date of delivery.

Proposals will be received for five thousand (5,000) bushels of Corn or Oats, and fifty (50) tons of Hay or Straw, and upward, unless it should be for the interest of the Government to contract for a less amount.

All grain to be put up in good sacks, of about two (?) bushels each, which are to be furnished at the cost of the contractor.

The Hay and Straw to be securely baled.

All Grain and Hay offered to be subject to a rigid inspection by the Government Inspector.

Contracts will be awarded from time to time to the lowest responsible bidders, as the interests of the service may require. Good security will be required for the faithful fulfillment of any contract made under this advertisement.

Payment to be made at the completion of the contract.

S. L. BROWN,
Captain and A. Q. M. U. S. A.

QUARTERMASTER-GENERAL'S OFFICE, WASHINGTON CITY, March 19, 1863.

OWNERS OF STEAM VESSELS ARE INVITED to send to the Quartermaster-General's Office tenders for their charter or sale.

Senders should contain descriptions of the vessels, their dimensions, enrolled or registered tonnage, actual carrying capacity, material, whether coppered, whether side-wheel or propellers, whether iron or copper fastened, size and power of engines and boilers; and should state the price at which they are offered, for long or short charter, with the estimated value of the vessel in case of loss, or in case the Government should prefer to purchase instead of chartering.

Owners of steam vessels already in the service of the Quartermaster's Department are requested to make known to the Department any reduction in their present rates which they may be willing to grant, and also the price at which they will be willing to sell them.

All such tenders should be addressed to the Quartermaster-General of the United States at Washington, and should be indorsed,

"Proposals for charter or sale of steamers."

When received they will be considered, and the Department will endeavor to reduce the heavy expense attending army transportation, upon the ocean and tide-waters, by substituting, wherever it can do so, cheaper vessels of equal capacity for those now employed.

PROPOSALS WILL BE RECEIVED AT the Treasury Department, Office of Construction, Washington, D. C., until 12 o'clock M. of May 5, 1863, for the repairs of warehouses and reconstruction of the docks, grading, &c., to be done on the United States property at Staten Island, New-York.

Bids must conform in all respects to the requirements of the plans and specifications, and be accompanied by a written guarantee of two responsible persons, that the bidder is able to perform the work, and will accept the contract if awarded to him. No bids will be considered that do not conform to these requirements.

The Department reserves the right to reject any or all the bids if it be considered for its interest to do so.

The plans and specifications may be seen at the office of the "Superintendent of Repairs," &c., Custom-house, New-York.

All bids to be inclosed in a sealed envelope, and indorsed, "Proposals for Repairs, Staten Island, N. Y.," and addressed to the Secretary of the Treasury, Washington, D. C. ISAIAH ROGERS, Engineer in Charge.

SEALED PROPOSALS WILL BE REceived by the School Officers of the Twelfth Ward, at the office of the Clerk of the Board of Education, corner of Grand and Elm sts., until FRIDAY, the 8th day of May, 1863, at 12 o'clock noon, for the desks, chairs, settees, &c., necessary for furnishing Primary School No. 41, in said Ward, pursuant to plans and specifications on file and to be seen at the office of the Superintendent of School Buildings, No. 94 Crosby-st. The proposals must be accompanied with the names of two responsible and approved sureties for the faithful performance of the contract to be entered into; and the School Officers of the Ward reserve the right to reject any or all of the proposals offered, if deemed for the public interests to do so.

OFFICE OF TROW'S DIRECTORY.—H. WILSON, Compiler, No. 50 Greene-st.

NOTICE.—The public are respectfully informed that the canvass for this work is now in progress. Persons doing business down town and residing in the upper part of the City, are solicited to leave at their places of business and homes, full information respecting their business and places of business, &c. Where several individuals occupy one office, a list should be made out, with full particulars, and left for the canvassers. By this means the annoyance of repeated calls for information, and the greater one arising both to the compiler and the public, from errors and omissions, may be in a great measure avoided. The canvassers employed on this work are furnished with written authority, signed by Mr. H. WILSON. They are authorized to receive money for the insertion of names in capital letters, and for extra lines to be inserted in connection with the name, &c., but for no other purpose. They are instructed to leave receipts, with which they are furnished, for all amounts, however small, received by them. Payment for the book to be made on its delivery; for advertisements in front or back, or colored leaves, after publication, and on presentation of the order signed by the advertiser. JOHN F. TROW, Publisher.

COMMISSIONER FOR NEW-JERSEY and other States and Notary—No. 6 Beekman-st., over Park Bank—Room No. 8—second floor.

RROPOSALS.

TO CONTRACTORS.—PROPOSALS WILL BE received until the 15th day of May, 1863, at 12 M., for filling, grading and paving Broad-street, in West Troy, from the north side of Auburn-street to its southern terminus, including the gutters thereof.

The street to be excavated, regulated and graded under the direction of the Village Surveyor, and to be paved with trap-block Belgian pavement—each block measuring on the face, or upper surface, not less than four nor more than seven inches in length, and not less than four nor more than five inches in width, and in depth not less than six nor more than eight inches—to be laid on a prepared bed of clean sand, or river gravel, not less than one foot in depth.

The trap-blocks are to be laid at right angles to the line of street, and with such rise or arch as the said Surveyor may direct—each course to be of blocks of a uniform width and depth, and so laid that all longitudinal joints shall be broken by a lap of least two inches. The whole of the work to be done in a manner more particularly described in the blank forms of contract and specifications to be furnished to persons who may desire to bid for the same. Security will be required in the sum of ten thousand dollars for the faithful performance of the work.

The proposals for this work will be publicly opened at the room of the Board of Trustees, in said village, on the 15th day of May, at 12½ o'clock P. M., and the contract awarded to the lowest bidder who shall comply with the terms of the contract, and the act in relation thereto.

Blank forms of contract and specifications, together with the Surveyor's estimates of materials, will be furnished on application to JAMES DUFFY, President of said village.

JAMES DUFFY,
A. A. DUNLOP,
JAMES ROY,
JOSEPH McLEAN,
J. F. PHELPS,
Joint Committee.

EUROPEAN INTELLIGENCE.

ARRIVAL OF THE CITY OF MANCHESTER.

Correspondence between Secretary Seward and Earl Russell on Neutral Vessels and Mails.

The Czar's Amnesty to the Poles.

The British steamship *City of Manchester*, HALCROW, from Liverpool 17th, and Queenstown 18th, at 4 P. M., with merchandise and 690 passengers, to JOHN G. DALE, arrived yesterday morning. On April 28, in lat. 42° 19', lon. 57° 20', passed steamship *City of Baltimore*, hence for Liverpool; in lat. 43° 15', lon. 48 to 49°, passed three icebergs.

The *Europa*, which arrived at Halifax Thursday, brought one day's later news than that which we receive by the *City of Manchester*. Our files, however, furnish us some important extracts:

Neutral Vessels and Mails.

CORRESPONDENCE BETWEEN EARL RUSSELL AND SECRETARY SEWARD.

From the London Telegraph, April 16.

Yesterday official correspondence was presented to Parliament, respecting the instructions given by the United States Government to naval officers, in regard to neutral vessels and mails. The correspondence refers chiefly to the capture of the British steamer *Adela* by the United States steamer *Quaker City*, to which the attention of Earl RUSSELL was called in August last, by Mr. STUART, and the steps subsequently taken by the Government at Washington. Mr. SEWARD, in a letter to Mr. Secretary WELLES, directed the latter to give the following instructions explicitly to the naval officers of the United States, modifying those previously acted upon: "First, that under no circumstances will they seize any foreign vessels within the waters of a friendly nation. Secondly, that in no case are they authorized to chase and fire at a foreign vessel without showing their colors, and giving her the customary preliminary notice of a desire to speak and visit her. Thirdly, that when that visit is made, the vessel is not then to be seized without a search carefully made so far as to render it reasonable to believe that she is engaged in carrying contraband of war to the insurgents and their ports, or otherwise violating the blockade; and that if it shall appear that she is actually bound and passing from one friendly or so-called neutral port to another, and not bound or proceeding to or from a port in the possession of the insurgents, then she cannot be lawfully seized. And, finally, that official seals, or locks, or fastenings, of foreign authorities are in no case, nor on any pretext, to be broken, or parcels covered by them read by any naval authorities of the United States; but all bags or other things conveying such parcels, and duly sealed or fastened by foreign authorities, will be, in the discretion of the United States officer to whom they may come, delivered to the Consul, commanding naval officer, or Legation of the foreign Government, to be opened, upon the understanding that whatever is contraband or important as evidence concerning the character of a captured vessel will be remitted to the prize court or to the Secretary of State at Washington; or such sealed bags or parcels may be at once forwarded to this Department, to the end that the proper authorities of the foreign Government may receive the same without delay."

Earl RUSSELL, remarking on the orders given by the authority of Mr. SEWARD, says, "They appear to be correct, and ought to suffice." In another dispatch, Earl RUSSELL directs Mr. STUART to ascertain from Mr. SEWARD whether the Government of the United States admits the principle that Her Majesty's mail-bags shall neither be searched nor detained. On this subject, Mr. SEWARD, in a letter addressed to the Secretary of the American Navy, dated Oct. 31, says, "It is thought expedient that instructions be given to the blockading and naval officers that, in case of capture of merchant vessels suspected or found to be vessels of the insurgents or contraband, the public mails of any friendly or neutral Power, duly certified and authenticated as such, *shall not be searched or opened, but be put, as speedily as may be convenient, on their way to their designated destinations.* This instruction, however, will not be deemed to protect simulated mail-bags, verified by forged certificates or counterfeited seals."

Earl RUSSELL, writing to Mr. STUART, Nov. 20, expresses his satisfaction that the above instructions have been issued by the United States Government.

The correspondence which has taken place between Mr. ADAMS and Earl RUSSELL on the subject of neutral rights, and duties, arising from the seizure of the steamer *Labuan* at Matamoras, was also published yesterday. The case of the *Labuan* is still under consideration. Mr. ADAMS, in the course of the correspondence, asked the British Government to interfere against the "unlawful trade" carried on by British subjects, representing that great embarrassment had arisen to the Federal Government by reason of it, and that the seizure of the *Labuan* was the result of that embarrassment. In his reply, Earl RUSSELL says: "There can be only one plea for asking Great Britain thus to interpose. That plea is, that the blockade is in reality ineffective, and that merchant ships can enter with impunity the blockaded ports. But this is a plea which I presume you will not urge. Her Majesty's Government have considered the blockade as an effective blockade, and have submitted to all its inconveniences as such. They can only hope that, if resistance should prove to be hopeless, the Confederate States will not continue the struggle; and that if, on the other hand, the restoration of the Union should appear to be impossible, the work of devastation now going on will cease." Mr. ADAMS, in his rejoinder, urges that the Foreign Enlistment Act has not fulfilled its intent, and asks the Government to take some action to render effective the spirit of the law. In his closing communication, Earl RUSSELL thus alludes to the neutral position maintained by the British Government: "If the British Government, by virtue of the prerogative of the Crown, or by authority of Parliament, had prohibited, and could have prevented, the conveyance in British merchant ships of arms and ammunition to the Confederate States, and had allowed the transport of such contraband of war to New-York and to other Federal ports, Her Majesty's Government would have departed from the neutral position they have assumed and maintained. *If, on the other hand, Her Majesty's Government had prohibited, and could have prevented, the transport of arms and ammunition to both the contending parties, they would have deprived the United States of a great part of the means by which they have carried on the war. The arms and ammunition received from Great Britain, as well as from other neutral countries, have enabled the United States to fit out the formidable armies now engaged in carrying on the war against the Southern States, while by means of the blockade established by the Federal Government, the Southern States have been deprived of similar advantages. The impartial observance of neutral obligations by Her Majesty's Government has thus been exceedingly advantageous to the cause of the more powerful of the two contending parties.*"

COMMENTS OF THE TIMES.

The *Times*, in a leader on the papers laid before the House of Commons, says it has been plain, from the beginning of the American war, that the assumptions of the Federal naval commanders will be limited only by the resistance of the British Government. With a WELLES at the Navy Department, and a WILKES at sea, the British trader must expect to endure everything that his own Government can be brought to tolerate. There are, however, limits to the forbearance which even a great nation can exercise toward a struggling but still petulant and presuming Government. In the case of the *Peterhoff*, these limits have been passed, and the spirit of Commodore WILKES' proceedings gives but too much reason to think that this violation of international law and common justice will not long stand alone. It is quite evident that the instructions of Mr. SEWARD, having served their turn, are now being quietly ignored, and that the former rule of seizing suspected vessels, whenever and wherever met with, is again to be followed. Unless a firm stand be made, there will be no end to the indignities and losses we must endure.

The Spy System in Liverpool.

From the Liverpool Post, April 17.

Under the above head, the following appeared in the *Times* yesterday, and caused a great "sensation" in this town:

"It is currently reported that the head constable of Liverpool, acting under instructions from Government, is employing Detectives COUSENS, SKAIFE, SMITH and HORNE to go about *incog.*, and obtain information respecting suspicious vessels, and also to watch the movements of leading Confederates. It is alleged that these detectives have already attempted to bribe the employes of certain firms. It is understood that the Mayor was first called upon to initiate this spy system, but declined, and that it is done against the wishes of the Watch Committee."

The subject, it will be seen, was referred to yesterday evening in the House of Commons; and the explanation of Sir GEO. GREY was, that in consequence of the statements made by the United States Consul in Liverpool having been sent to him from Earl RUSSELL, he had written to the Mayor here to cause inquiries to be made. These inquiries were made with the approbation of the Mayor and the Watch Committee.

Maj. GREIG was bound to obey the Chief Magistrate and the Home Office. The Watch Committee had nothing to do with the business, and, of course, were not consulted. Their office is merely financial, and they are not concerned in the administration of justice or police operations. A Solicitor of the Treasury has been down here all the week taking evidence in reference to the case of the *Alexandra*, and he, we understand, employed COUSENS, the cautious and excellent detective, to make inquiries for him. COUSENS was the only police officer employed, and, of course, no bribery was resorted to. Private detective officers have, no doubt, been employed, and, as they are non-official, they stand exposed to all kinds of censure and suspicion.

The Polish Revolution.

THE "AMNESTY" TO THE POLES.

The following is the complete text of the imperial manifesto issued by the Emperor of Russia on the 12th ult., whereby his Majesty announced an amnesty to the Poles:

"Since the appearance of the first reports of disorders which have broken out in the kingdom of Poland, the dictates of our heart have been followed by us, and we have declared that we do not make the Polish nation responsible for the agitations which have had the most unfortunate consequences for that kingdom. We have only ascribed them to the incitements which have proceeded for some time from some individuals in foreign countries, who, from having spent many years in an unsettled manner, are accustomed to promote discord and arbitrary acts, and to weave plots in the dark, by which the feelings which one owes to a love for humanity are smothered in them, and which could even influence them to sully the national honor by crimes. These proceedings of another age, which for some time have been condemned by the decree of history, do not any longer accord with the spirit of our time. The present generation must devote itself to the task of establishing the welfare of the country, not by streams of blood, but by a course of peaceful progress. This is the object which we set before ourselves when we, under the divine protector, took the oath before God and our conscience to devote our life to promote the happiness of our people. If, however, we would fulfill this oath, which is ever sacred to us, to its full extent, we must be sure of the approbation of all men who intend to act sincerely for the advantage of this country, and who base their attachment not on interested expectations or criminal attempts, but on the sincere maintenance of public peace, under the protection of the law.

In our anxiety for the future of the country, we will consign to oblivion all past acts of rebellion. Therefore, influenced by the yearning desire to put an end to the flow of blood, which is as fruitless for the one party as it is painful to the other, we are willing to accord full pardon to all our subjects in the kingdom who have taken part in the recent disturbances, if they are not responsible for any other crimes, or for offences connected with our army, and if they will lay down their arms by the 1st (13th) of May, and return to obedience. On us lies the duty to guard the country from the return of all agitations opposed to order, and to open to it a new era in its political life. These can only be introduced by a rational organization of the powers of local self-government as the basis of the entire structure. We have given the basis of this reform in the institutions granted by us to the kingdom, but to our sincere grief the result has not yet accorded with the teachings of experience in consequence of the insurrectionary events whereby chimeras of the passions have been substituted for the voice of public opinion, which is necessary for every reform.

Whilst we now maintain these institutions in their full integrity, we reserve to ourselves the power, when they have been tested by practice, to proceed with their further development according to the wants of the country and the time. It is only by the confidence of the country in our views that the traces of the present misfortunes in the Kingdom of Poland can vanish, and that it can proceed surely to the goal which our care points out to it. We implore the Divine aid that we may succeed in fulfilling what we have always considered to be our mission.

ALEXANDER.

ST. PETERSBURGH, March 31, 1863.

Purposes of the Emperor Napoleon.

In its "News of the Day" column, the Liverpool *Mercury* has this paragraph:

"The Paris correspondent of the *Express* says he thinks it is not too much to say that the Emperor NAPOLEON is seriously revolving in his mind the possibility of war with Russia. For some time past the world at large has been laboring under a similar apprehension; but the difficulties are so enormous that the Emperor will not move unless he can carry with him some of the great Powers, and to obtain their coöperation is well nigh impossible. The English Government must by this time be pretty well convinced that, if it entered upon a war on behalf of Poland, the Northern States of America would seize on so favorable an opportunity for carrying out their cherished design of declaring war against this country. Admitting that Italy, which is quite probable, is willing to join an alliance against Russia, she would do so in the hope of getting Venetia as her compensation. The inclusion of Italy in the alliance would, however, be a menace to Austria, unless Austria consented to abandon Venetia and her German ally, Prussia, as well. What would the German Confederation say to this? Many of the German States would charge her with being a traitor to the Fatherland, and with giving the Rhine frontier to France. Is Austria likely to put herself in such a painful position unless under the pressure of great provocation from Russia or great temptation from the Western Powers? And what is that temptation to be? A Polish Kingdom for the Archduke MAX? What benefit would it be to the Emperor FRANCIS JOSEPH to purchase a crown for his brother with one of his own provinces? In fact, not one of the Powers can move without stirring up questions of the most complicated and dangerous kind, and if war once breaks out, it will be both a European and an American war. Perhaps it may be a consciousness of this fact which has induced *Bultier's Correspondence* to put forth the following curious little paragraph: '*We shall surprise our readers by telling them that the conditions of peace in America are likely to be dictated not from Washington, but from Mexico or Vera Cruz.*' Another letter from Paris (that of the *Morning Advertiser*) says that the Emperor perhaps intends to permit Sweden to open the ball in Finland, and then, in his quality of defender of the oppressed, to rush to her aid. The writer tells us not to reject this supposition as ill-founded, for 'it is based upon surmises which have been let fall by French statesmen.'"

The French in Mexico.

Correspondence of the London Telegraph.

PARIS, Tuesday, April 14.

I must not omit to tell you that I have just heard, on very good authority, that the French Government have assured England *they only want to be paid the expenses of the Mexican war, and that then they are prepared to withdraw their army at the earliest possible opportunity.* The accounts from Puebla and Mexico are very bad. JUAREZ has gone on imposing war taxes till there is nobody and nothing left to tax. All the religious orders except the Sisters of Charity have been expelled the cities, and their property confiscated; the very churches have been sold to pay the soldiery. Now, however, all seems exhausted, and nothing but ruin awaits them. It seems, indeed, a war in which both sides are losers; and one cannot help thinking that those high in authority there must sometimes ask themselves that oft-quoted but still pertinent question: "*Que diable allait-on faire dans cette galère?*"

Mlle. Patti in Venice.

SINGULAR EXCITEMENT OF THE POPULACE.

The enthusiasm of the Viennese population for Mlle. PATTI has assumed an alarming phase. It is announced that this charming singer sang on Easter Sunday at the Church of the Augustines, which was crowded at an early hour by an eager throng. The pressure was so great, in fact, that many persons fainted. On leaving the church Mlle. PATTI was accompanied by an enormous crowd, and the popular enthusiasm was shown by loud applause and other demonstrations. The anxiety of the crowd to see the young *artiste* was so great that she was separated for a moment from her carriage, and the lady who accompanied her. In vain she assumed an air of supplication, and tried to force herself a passage. She was at last borne away by the crowd, obliged to take refuge in Prince PALFFY's palace. Fortunately the lady's maid of the Countess FERRARI ZICHY had viewed the scene from the balcony, and, quick as thought, she darted down the stairs, admitted Mlle. PATTI, who was more dead than alive, and then shut the door in the face of the crowd. The music-mad Viennese were not satisfied, and their excitement became more intense. Uttering deafening cries, they broke open the door, rushed up the stairs, and were on the point of entering some of the rooms, when the Princess DE PALFFY appeared, and by her calm and dignified attitude so much subdued the crowd that they retired and quitted the palace. Mlle. PATTI was greatly alarmed by this occurrence, and was not able to sing in the evening.

The Great Eastern.

From the Liverpool Post, April 14.

The "big ship" is to be floated and removed to her moorings to-day. The repairs were all completed yesterday evening, and we are informed that everything has been done to the entire satisfaction of the surveyors for the Board of Trade, so that her hull may be considered as perfect and almost as good as when she was launched. The tide will be at the height at a quarter before 11, so that she will be removed about that time. It anything should occur to prevent her getting off to-day, she is certain to go off on Saturday; but there is little doubt about her getting removed to-day. Immediately after she gets to her moorings she is to commence taking in her coals and cargo, and she will sail for New-York on the 2d of May.

THE BATTLE OF CAPE GIRARDEAU.

How the Rebels were Repulsed—Gallantry of the Federal Officers and Men.

Correspondence of the Missouri Democrat.

CAPE GIRARDEAU, MO., Sunday, April 26.

A battle was fought yesterday, commencing at 10 o'clock P. M., and lasting until 3 o'clock A. M. In the morning it was rumored that the enemy were retreating, without giving battle. Afterward, it was brought on by an attack on the First Nebraska infantry, posted on the edge of a wood, about one mile from town, near the Jackson road. Here the enemy attempted to make their way into the town, but were held in check and defeated by the bravery of the Nebraska troops, under Lieut.-Col. BAUMER, Capt. MAJORS, Capt. RIBBLE, Capt. GILLETTE and other officers, who resisted successfully for one hour an entire brigade of the enemy.

From 11 o'clock A. M. till 3 o'clock P. M. the fight continued, mostly with artillery. The enemy had planted his batteries in the edge of the timber, about a mile from the town, on several roads, and contended with WELFLY's battery, posted on a hill beyond Fort B, with another battery of the Second Missouri artillery, on another eminence beyond the range of the forts, and with Fort B. They threw mostly 6-pound shot, consisting of round and conical shells, but doing no damage. Most of their firing was too high, and some of their shot came into the town.

Our batteries and the heavy artillery of Fort B did the enemy great damage. Whenever they appeared in sight our shot and shell scattered them. The rear of our artillery was terrible. After the battle, the ground occupied by the enemy was found scattered here and there with dead horses, and several of their dead soldiers were left on the field, while many were removed.

The force of the enemy is estimated at 10,000, under MARMADUKE; the Federal force at 2,400, under Brig.-Gen. JOHN MCNEIL. The regiments participating in battle on our side were the First Nebraska infantry, the First Wisconsin cavalry, WELFLY's battery, and the Second Missouri battery—the other troops of the State militia being held in reserve.

Gen. MCNEIL displayed the greatest coolness, energy and bravery throughout the battle, and laid his plans in the best possible manner. He has been active and vigilant by night and by day, and was yesterday the master-spirit of the field, directing all operations, and giving the enemy a touch of his metal which they will not soon forget.

The loss on our side was inconsiderable, consisting of six killed and a small number of wounded. The loss of the enemy is unknown, but is much greater. Several of their dead were left upon the field, and we have Maj. BLACKWELL and Adjt. EDWARDS, of the First regiment of SHELBY's brigade, prisoners and wounded. They were brought in last night and are being well treated, under the care of Dr. MCCLELLAN, at the general hospital. They represent that our artillery firing did terrible execution among them, and that the fighting of the First Nebraska boys was splendid.

Near the close of the battle, reinforcements arrived from St. Louis on the steamer *Ocean Wave*, consisting of the Thirty-seventh Illinois Infantry, Col. BLACK; two companies of the Twentieth Iowa, and two pieces of artillery, accompanied by Col. LIVINGSTON, of the First Nebraska infantry. Col. LIVINGSTON has the reputation of a splendid officer. Arriving late he did not take command of his regiment, but left it in command of Lieut.-Col. BAUMER.

One of the interesting incidents of this affair was the answer of Col. STRAHAN, on behalf of Gen. MCNEIL, to the rebel flag of truce, demanding the surrender of the town, and allowing half an hour for an answer. In returning the written answer, Col. STRAHAN remarked to the rebel officer:

"I want you to set down twenty-nine minutes to the credit of Gen. MCNEIL. It took him but one minute to give his answer, and he expects to hold the post of Cape Girardeau himself."

The Invasion of Missouri.

MARMADUKE'S ADDRESS TO HIS SOLDIERS.

HEADQUARTERS MARMADUKE'S DIVISION,
IN THE FIELD, April 18, 1863.

SOLDIERS! You are about entering upon an arduous expedition against the enemy. Whether the expedition will be successful—whether the result will redound to your glory or your shame, will depend much upon yourselves. Other commands of a like character with this, in other portions of the Confederacy, with no more favorable auspices than brighten above, have achieved results honorable to themselves and beneficial to their country. The same chivalrous daring, steady discipline, and alacrity in the performance of duty, will produce the same results now as then.

You go, soldiers, to aid in redeeming a noble State from cruel thraldom; you go to fight the enemies of your country, and not to pillage and destroy the substance of your friends; you go to establish peace, liberty and happiness among a people kindred in blood, and similar in sentiment, and not to make a waste and a desert of an alien State; you go as friends among friends, or your noblest efforts will fail of your purpose, and your brightest victories will lose much of their renown.

You fight, soldiers, for a common cause and for a common object. Banish, then, from your midst, every hard feeling engendered of State pride, and know no rivalry save that of generous emulation in the discharge of your duties as the soldiers of the Confederacy, and the pioneers who go before to open up a mighty empire to the South.

Texans, Arkansans and Missourians! I have confidence in your devotion to your country, in your gallantry upon the field, in your observance of discipline, in your obedience to orders, and in your ability to overcome the foe. I, therefore, propose to lead you where your enemy holds lordly sway over aged men, and women and children. I propose to open a wide field for your exertion, to give you every opportunity to fight and destroy your common enemy—and the result I am content to leave to God and to you.

J. S. MARMADUKE,
Brigadier-General Commanding.

Official: H. EWING, A. A. G.
For Col. BURBRIDGE.

HELMBOLD'S REMEDIES.

THE GREAT "AMERICAN REMEDIES,"
KNOWN AS
"HELMBOLD'S"
GENUINE PREPARATIONS, viz:
HELMBOLD'S EXTRACT "BUCHU."
HELMBOLD'S EXTRACT SARSAPARILLA.
HELMBOLD'S IMPROVED ROSE WASH.

HELMBOLD'S GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,

A positive and specific Remedy for Diseases of the BLADDER, KIDNEYS, GRAVEL and DROPSICAL SWELLINGS.

This medicine increases the power of digestion and excites the absorbents into healthy action, by which the *water* or *calcareous* depositions, and all unnatural enlargements, are reduced, as well as pain and inflammation, and is good for *Men, Women or Children*.

HELMBOL'DS EXTRACT BUCHU,

for Weaknesses arising from Excesses, Habits of Dissipation, Early Indiscretion or Abuse, attended with the

FOLLOWING SYMPTOMS:

Indisposition to Exertion,
Loss of Memory,
Weak Nerves,
Horror of Disease,
Dimness of Vision,
Universal Lassitude of the Muscular System,
Hot Hands,
Dryness of the Skin.
Loss of Power,
Difficulty in Breathing,
Trembling,
Wakefulness,
Pain in the Back,
Flushing of the Body,
Eruptions on the Face,
Pallid Countenance,

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow

IMPOTENCY, FATUITY, EPILEPTIC FITS,

in one of which the patient may expire. Who can say they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION!

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION ONCE AFFECTED BY ORGANIC WEAKNESS,

requires the aid of medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. A trial will convince the most skeptical.

FEMALES! FEMALES! FEMALES!
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females, the Extract Buchu is unequaled by any other remedy, as in Chlorosis or Retention, Irregularities, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Scirrhous state of the Uterus, Leucorrhea or Whites, Sterility, and for all complaints incident to the sex, whether arising from indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.
SEE SYMPTOMS ABOVE.
NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury or Unpleasant Medicine, for Unpleasant and Dangerous Diseases.

HELMBOLD'S EXTRACT BUCHU
CURES SECRET DISEASES

in all their stages, at little Expense; little or no change in Diet; no inconvenience, AND NO EXPOSURE.

It causes frequent desire and gives strength to Urinate, thereby removing obstructions, preventing and curing strictures of the urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling POISONOUS, DISEASED AND WORN-OUT MATTER.

Thousands upon thousands who have been the

VICTIMS OF QUACKS,

and who have paid HEAVY FEES to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE
HELMBOLD'S EXTRACT BUCHU

for all Affections and Diseases of the URINARY ORGANS, whether existing in MALE OR FEMALE, from whatever cause originating, and no matter of how long standing. Diseases of these Organs require the aid of a DIURETIC.

HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,

and it is certain to have the desired effect in all Diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!
HELMBOLD'S HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT SARSAPARILLA.
SYPHILIS.

This is an affection of the Blood, and attacks the sexual organs, Linings of the Nose, Ears, Throat, Windpipe and other Mucus Surfaces, making its appearance in the form of Ulcers. HELMBOLD'S Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the Complexion a Clear and Healthy Color. It being prepared expressly for this class of complaints, its Blood-purifying properties are preserved to a greater extent than any other preparation of Sarsaparilla.

HELMBOLD'S ROSE WASH,

an excellent lotion for diseases of a Syphilitic nature, and as an injection in diseases of the Urinary Organs arising from habits of dissipation, used in connection with the Extracts Buchu and Sarsaparilla, in such diseases as recommended. Evidence of the most responsible and reliable character will accompany the medicines.
